April 29, 2009

Dear Parent:

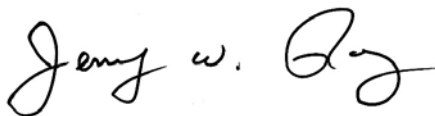

This letter is to share with you that our district has three probable cases of swine influenza. The district is closing Hebron Valley Elementary from Thursday, April 30 through Wednesday, May 6 to disinfect and sanitize the building.

Currently, the Denton County Health Department is waiting for the results of the test to determine if any of the three cases are the swine flu strand. Symptoms of the swine flu are similar to the regular seasonal flu. Swine flu symptoms include: high fever of 100.5 or higher, vomiting, diarrhea, severe headache, muscle and body aches, chills and fatigue. If your child has any of these symptoms, please call your child's doctor immediately. If your child is sick, please keep your child home until there is no fever for 24 hours.

Also, the state's University Interscholastic League (UIL) has suspended all events until May 11. The district is following UIL's protocol and suspending all district activities until May 11.

Continue to visit our district's website at [www.LISD.net](http://www.LISD.net) for updates. If you have any questions, please feel free to call the district's Communications Office at 469.948.8152.

Regards,

Jerry Roy, Ed.D.  
Superintendent of Schools
