TO: Raul Pena, Principal

SUBJECT: Central ES - IAQ - Air Test in Rooms 602-614 & 618-621

This is a follow-up to our meeting yesterday. Work Order #69489 "We have a concern from Maria Rivera of possibly having mold issues in room 621, and the rooms in our forth grade hallway". I have requested EFI to test 17 rooms in the forth grade hallway (602-614 & 618-621). We should have the test results back by the end of the week. If you have any questions, please call me.

Thanks,
Paul
