**SEPTSA was recently awarded the TX PTA Parent Ed Silver Award for 2008-2009. The Silver Award is a PTA Program award to recognize local PTAs who use timely, useful programs to help educate their members about topics that relate to their children. The Silver Level Recognition requires that a PTA present two parent education programs and publish three articles in their newsletter or on their website. As you may know, SEPTSA presented monthly programs related to parenting children with special needs of various ages and abilities, and our website and newsletter are practically spilling over with such information. We are pleased and excited to be recognized by Texas PTA and hope that this recognition helps spread interest in other school districts across Texas about starting a Special Education PTA to serve their parents.**
