

Please remember the following  
when sending in medication for your child!

### **OVER THE COUNTER MEDICINES**

1. Send the medication in the original container.
2. Make sure that it is not expired.
3. Label the container with your child's name and their teacher's name.
4. Non prescription medications (without a doctor's order) will only be distributed up to 5 days AND require written instruction!

*\* There is an LISD consent form linked to the Forest Vista website. Parents should print, sign and turn it in. **If the medication is to be given for more than 5 days then the form has to be signed by a doctor.***

### **PRESCRIPTION MEDICINES**

1. All medications must be in original container with the student's name (pharmacy label) on it.
2. A LISD consent form must be filled out by a physician and signed by a parent for medicine to be given.
3. Medication cannot be given if expired.

Thank you for your support and cooperation. Please let me know if you have any questions.
