

Internet Competencies Test – Level 1

IMPORTANT: This test is to be completed by the teacher without assistance from others. If there is reason to believe that you have behaved unethically in the taking of this test, you may be asked to re-take the test in the presence of Technology Department personnel. ***Using the Internet to help answer these questions is encouraged.***

Answer the following questions in a word processor document. Use the title “**Internet Competencies Test—Level 1**” at the top of your answer sheet.

Please include your name and campus at the top of the document.

Internet

1. Visit the site <http://flash.lisd.net/technology/tli/itnumber1.html>

What are the exact words found on the site?

2. Review this web site: <http://147.129.226.1/library/research/AIDSFACTS.htm>

This site contains bogus information that might appear real to an unsuspecting visitor. After reading it for content, describe at least **three** aspects of the site which would lead you to believe the site contains misinformation. **Multiple examples of the same reason will only count as one aspect.**

3. How would you cite the online journal article <http://www.fno.org/mar98/floatilla.html> if you were using it for research? Write the citation in MLA style for a website.

4. Find the text of Chapter 32, subchapter 31 (32.031) of the Texas Education Code online.
a. What is the exact URL (address) of the page that contains the link where you found it?
b. Copy and paste the text of this passage into your answer sheet.

E-mail

5. What is the difference between "Reply" and "Reply to all"?

6. List 3 ways to protect your computer from email viruses.

7. What steps need to be taken to completely remove an e-mail from your e-mail account?

8. List three unethical uses of your district e-mail account.

Instructions for submitting the completed test:

1. If you have not submitted any other tests before, create a sub-folder in your network folder with the name "**comptest.**" Again, you should complete this item without assistance from others, since it will be used in part of the Operating Systems competency assessment.
2. Save your answer sheet into the comptest folder in a file named (**your network id**) **inttest.** For example: **smithjinttest** **Do not use parentheses or spaces in your filename!**
3. Send an e-mail to grader@lisd.net, with the following information:
 - a. The answer sheet for this test should be included as an attachment.
 - b. The subject line must be **Internet Test**

****NOTE: If the subject line is NOT typed correctly, your test will not be accepted as our database automatically reads the test submission e-mails! It will only recognize the correct subject line and will throw away anything submitted incorrectly.

- c. The e-mail body should include your name
- d. The e-mail body should include your campus
- e. The e-mail body should include the following statement:

"In submitting this test, I verify that I have not received help on this test from anyone else, including other teachers, staff members, students, or family members."
