

Preparation is essential for success on the AP Macro exam. This is a hard exam. You absolutely can do it!

How AP Macro tutoring works:

1. Be prepared to come into the tutoring session by having questions ready!
2. All the modules have a Voiceover/ video and that is your prep to attend the tutoring sessions.
3. In other words, I am not going to re-teach you the unit during the tutoring session.
4. The session is for clarification, explanation, curiosity, etc. about the unit material.
5. If you can't attend, listen to the WebEx recordings for the tutoring sessions (listed separately in CANVAS). You will always learn something!

Wednesday 7:00 p.m. Virtual WebEx Session	Thursday 4:05 p.m. in Room 2615
