

Incoming 7th grade parents:

This is an important reminder that two additional immunizations are required by the State of Texas for entrance into 7th grade which includes: Meningitis (meningococcal) and Tdap/Td (booster).

We understand that some medical providers are not administering vaccines right now and may have limited vaccine stock. However, the Texas Education Association has clarified that students must be current with the required vaccines to attend school (TEC, Section 38.001) on August 11, 2021.

Please remember that your child will need both vaccines before the first day of the 2021-22 school year. You may contact Nurse Violet Kulhanek with any questions at (972) 350-1502 or email KulhanekV@LISD.net.

Also, attached is the LISD Spinal Screening Form for those who prefer to have your child(ren) screened by a doctor over the summer. Thank you, in advance, for your help in keeping our students and school community healthy. Have a wonderful and safe summer!

Violet Kulhanek, BSN, RN, BA

Shadow Ridge Middle School Nurse
