

To: Parents of Current 6th Graders

Re: Immunization Requirements for Students Entering 7th Grade

The Texas Legislature passed legislation in 2009 requiring additional immunizations for students entering 7th grade. Parents are required to provide proof of these immunizations prior to the start of school in August (2025). Students who do not have proof of these immunizations will not be permitted to attend school in August.

Two additional immunizations are required:

- Tdap booster (within 5 yrs. of last Dtap dose)
- Meningococcal (MCV4, MenACWY, Menveo, Menactra)

State of Texas Vaccine Requirement for Meningococcal

For K-12th grades, one dose of quadrivalent meningococcal conjugate vaccine is required on or after the student's 11th birthday. If a student received the vaccine at 10 years of age, this would satisfy the requirement.

**Reminder: 7th grade immunization record(s) must specify type of meningococcal (MCV4, MenACWY, Menveo, or Menactra).
"Meningococcal" or "mening" are no longer accepted.**

This notice is being sent to you early as many of you will visit your pediatrician this spring/summer. Some may have already received these vaccines. Please review your child's immunization records to see if he/she has already been vaccinated. If so, please provide a legal copy of your child's record as soon as possible.

You can mail it to:
Shadow Ridge Middle School
2050 Aberdeen Rd
