

Counselors Reinforcing Excellence in Texas

The CREST awards recognize schools across Texas that appropriately utilize their Professional School Counselors and demonstrate a continuous commitment to building a campus team and programs based on the *Texas Model for Comprehensive School Counseling Programs*, endorsed by the Texas Education Agency. Awards presented on Sunday, February 18, 2018 in Galveston, Texas.

These award-winning campuses engage their Professional School Counselors to provide students with the classroom guidance, college and career readiness and social/emotional skills needed to be academically successful and well-prepared for life. Professional School Counselors receiving the CREST award use data-driven results to show the effectiveness of their comprehensive guidance and counseling program.
