

Student Acceptable Use Policy

Lewisville Independent School District provides a variety of electronic communications systems for educational purposes. **The electronic communications system is defined as the District's network (including the wireless network), servers, computer workstations, mobile technologies, peripherals, applications, databases, online resources, Internet access, email, and any other technology designated for use by students, including all new technologies as they become available.** This also includes any access to the Lewisville ISD electronics system while on or near school property, in school vehicles and at school-sponsored activities, and includes the appropriate use of district technology resources via off-campus remote access. Please note that the Internet is a network of many types of communication and information networks, including Web 2.0 resources (Blogs, Wikis, Podcasts, etc.), and is part of the district's electronic communications systems. Web 2.0 applications offer a variety of 21st Century communication, collaboration, and educational creativity opportunities. In a 21st Century school system, technologies, the Internet, and Web 2.0 tools are essential.

In accordance with the Children's Internet Protection Act, Lewisville Independent School District educates staff and students regarding appropriate online behavior to ensure Internet safety, including use of email and Web 2.0 resources, and has deployed filtering technology and protection measures to restrict access to inappropriate content such as those that are illegal, harmful, or contain potentially offensive information. While every effort is made to provide the most secure and optimal learning environment, it is not possible to absolutely prevent access (accidental or otherwise) to inappropriate content. **It is each student's responsibility to follow the guidelines for appropriate and acceptable use.**

Web 2.0 Tools

Students 13 or younger. For students under the age of 13 the Children's Online Privacy Protection Act (COPPA) requires additional parental permission for education software tools. Parents wishing to deny access to these educational tools must do so in writing to the campus principal.

Please be aware that certain online educational tools and applications may collect student directory information, including, but not limited to, name, grade, and address for marketing purposes. LISD maintains a list of digital resources that accompany district adopted materials at: <http://www.lisd.net/Page/9750>. In accordance with the Protection of Pupil Rights Amendment, if your child is thirteen (13) years of age or younger, you may provide written notice to the campus principal no later than the third Friday after your student's first day of school if you do not want your child to use online tools or applications that collect directory information for marketing purposes.

APPROPRIATE USE

- Students must only open, view, modify, and delete their own computer files.
- Internet use at school must be directly related to school assignments and projects.
- Students will be assigned individual email and network accounts and must use only those accounts and passwords that they have been granted permission by the district to use. All account activity should be for educational purposes only.
- Students must immediately report threatening messages or discomfoting Internet files/sites to a teacher.
- Students must at all times use the district's electronic communications system, including email, wireless network access, and Web 2.0 tools/resources to communicate only in ways that are kind and respectful.
- Students are responsible at all times for their use of the district's electronic communications system and must assume personal responsibility to behave ethically and responsibly, even when technology provides them freedom to do otherwise.
- Students will use LISD guest Wi-Fi access for filtering purposes on *Bring Your Own Technology* devices.

INAPPROPRIATE USE

- Wireless Hotspots not provided by LISD are prohibited on the LISD network.
- Using the district's electronic communications system for illegal purposes including, but not limited to, cyberbullying, gambling, pornography, and computer hacking.

SPECIAL NOTE: CYBERBULLYING

Cyberbullying is defined as the use of any Internet-connected device for the purpose of bullying, harassing, or intimidating another student. This includes, but may not be limited to:

- Sending abusive text messages to cell phones, computers, or Internet-connected game consoles.
- Posting abusive comments on someone's blog or social networking site (e.g., Instagram, Snapchat, Twitter, or Facebook).
- Creating a social networking site or web page that masquerades as the victim's personal site and using it to embarrass him or her.
- Making it appear that the victim is posting malicious comments about friends to isolate him or her from friends.
- Posting the victim's personally identifiable information on a site to put them at greater risk of contact by predators.
- Sending abusive comments while playing interactive games.
- Recording and distributing media with the intent to manipulate or embarrass others.

CONSEQUENCES FOR INAPPROPRIATE USE

- Appropriate disciplinary or legal action in accordance with the Student Code of Conduct and applicable laws including monetary damages.
- Suspension of access to the district's electronic communications system.
- Revocation of the district's electronic communications system account(s); and/or
- Termination of System User Account: The district may deny, revoke, or suspend specific user's access to the district's system with or without cause or notice for lack of use, violation of policy or regulations regarding acceptable network use, or as a result of disciplinary actions against the user.
- Possible criminal action.

EMERGENCY PLAN

During an emergency situation, students may only use their cell phones to contact 911. All other calls will be in violation of the AUP. Status, actions required, and official information will be communicated to parents and others by the District.

Electronic Communication Devices: *Bring Your Own Technology*

LISD is excited about the new learning opportunities available through *Bring Your Own Technology*. It is our goal that students and teachers will collaborate in rich, engaging learning experiences using technology. Students may bring their own technology and utilize personal electronic communication devices at school and at school activities. Students may use these devices in the classroom when the teacher deems them appropriate for educational purposes. All devices must remain silent or be put away unless being used within a lesson during class time. Students may also use devices during non-instructional times, such as passing periods, lunch and before/after school, at the discretion of campus administration and in accordance with district and campus rules and expectations.

Devices include, but are not limited to, the following: notebooks, smart phones, iPhones, iPads, iPods, mp3 players and eReaders. All devices should be clearly labeled with student's full name. Students are responsible for personal property brought to school and should keep personal items with self or in a locked space. Devices should be charged prior to bringing them to school.

In the event the technology is used inappropriately, normal disciplinary consequences may occur.
