Internship Program Admissions

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

The Lewisville ISD internship program began in 1994 and provides a planned sequence of training experiences, with a primary focus on assuring breadth and quality of training, designed to prepare interns to excel in the provision of psychological services across settings. Interns provide psychoeducational and psychological evaluation, consultation, and intervention services, including individual and family counseling, behavior management, crisis intervention, and training. The internship program exists within a large and diverse school district, offering considerable multicultural experiences and training, as well as multidisciplinary evaluation and consultation. The program consists of 2000 hours of training over a 12-month period, with at least 25% in direct client contact. Preference may be given to applicants with experience in schools, but the program welcomes applicants from a variety of graduate training programs (school, clinical, and/or counseling). The Lewisville ISD internship program highly values diversity amongst staff members, and strongly encourages individuals with diverse backgrounds to apply. Every prospective employee of Lewisville Independent School District must go through the District's employment and hiring process, which includes undergoing and passing a background check, before being allowed to work in the district. Employment guidelines are established by LISD Board Policy DBAA (Local), which is accessible at this link: <https://pol.tasb.org/Policy/Code/384?filter=DBAA>. Lewisville ISD Board Policy states that the "District shall obtain criminal history record information on final candidates for employment. All District positions have the potential for contact with students. The District shall disqualify from employment a person whose criminal history indicates that the person poses a threat to students or employees. Consistent with business necessity, the District shall also disqualify from employment a person whose criminal history is otherwise inconsistent with the job duties of the position for which the person is being considered." Each criminal history is reviewed on a case by case situation and the "pass/fail" determination is made based on the type of infraction as well as the time and frequency of the infraction. LISD does not conduct pre-employment drug testing. Decisions regarding employment are made by the Chief Human Resource Officer and Executive Director of Human Resources. Each prospective employee is also required to complete an Employment Eligibility Verification Form (I-9) and produce documentation of their identity and authorization to work; presentation of their social security card is required for payroll purposes. The Lewisville ISD Psychology Internship Program requires each matched Intern to sign an "Internship Acceptance Form," acknowledging that their Internship appointment and employment with the District is contingent upon successfully completing the District's hiring process. Lewisville ISD reserves the right to refuse employment and/or terminate the contract of any intern who violates District policy, whose performance is deemed unsatisfactory, or upon notification by the intern's University that the intern has withdrawn from the University or is otherwise ineligible for the doctoral Psychology Internship Program.
