We understand how disappointing a counselor change may be. It is our goal to best meet the needs of all students, which at this time required a better student to counselor ratio. If your counselor has changed, please know your needs will still be met. We are working hard to share information to ensure a smooth transition.

As you may have heard, the district has added a new position to the counseling department, Student Assistance Counselor. This new position will serve both FM9 and FMHS with a focus on supporting the well being of all students by bringing skillsets from a variety of emotional and mental health specialties.
