

LISD Digital Instructional Materials

Parent Introduction Letter

Dear Lewisville ISD Parent,

A new school year is upon us, and I am excited to have your child in my class! There are a variety of resources and strategies that we use for learning in our classroom, including instructional materials that are both digital and traditional. What we knew as “textbooks” are now a large variety of instructional materials, and the digital resources are portable and much more interactive than traditional texts.

Many of our digital resources are updated or new, and I wanted to take this opportunity to share a brief overview of what we will use in class and what you should see at home.

Overview of Digital Resources for Our Class

Digital Resource: *Pearson Realize - Digits*

Overview: *Pearson Realize Digits is a complete digital resource for students. By clicking on the “Programs” prompt, students can re-play lesson presentations including examples. When students click on the red “Classes” prompt, students can open new assignments, continue working on assignments already started and review completed assignments. The online assignment offers two types of help and allows students to check their answers three times before submitting an answer. Students may also complete each assignment twice for a higher grade.*

Use at Home: *Students will use Pearson Realize – Digits in two ways. First, if a student was absent or unable to attend tutorials, the student can review the concept presentation. Second, the student can complete independent practice (homework assignments) while still receiving multiple levels of support.*

]

Support:

LISD is committed to providing superior support for both teachers and students with our Digital Instructional Materials. If your student has an issue with their individual iPad or with logging into one of our digital resources, please have them submit a service request using the link on their iPad or by visiting <http://ipadsupport.lisd.net>.

Information:

You can find up-to-date information about all of our Digital Instructional Materials by visiting <http://studentapplications.lisd.net>.

Please let me know if you have any questions, and I wish you the best as we start a new school year!

Sincerely,

Cindy Reuscher
