Subject: Consider Approval of Campus Video Streaming Systems and Related Products and Services - Cooperative Contracts

Background Information:

- As part of the 2017 Technology Bond Project list, the LISD Technology Department identified a need for a solution that allows campuses to stream and capture announcements and other media.
- The Technology Department researched products that can provide this functionality and then developed specifications for a video streaming system.
- The video streaming system was demonstrated to all campus principals at the April 24, 2019 Principal U meeting. All principals were polled, and there was a strong desire to have this system at their campus. This was also discussed at the May 13, 2019 Board of Trustees meeting.
- To meet the needs of LISD campuses, the Technology Department would like to extend this functionality to all campuses. This solution would offer campuses the capability to stream and capture high quality video and audio.
- These streaming systems would be installed by LISD Technology staff, with the intent of utilizing as much of the summer period as possible for installations.
- The Technology Department requested the Procurement and Contracts Department to obtain pricing in accordance with their specifications. The Procurement and Contracts Department requested quotes from vendors who have been awarded a cooperative contract.

Administrative Consideration:

- This project has been budgeted for in the 2017 Technology Bond project list. Funds will come from Technology Department bond funds and possibly general funds.
- Anticipated expenditures: \$176,000, but will not exceed the approved budgets.
- This procurement complies with Section 44.031 of the Texas Education Code.

Recommendations:

- That the Lewisville ISD Board of Trustees approves the anticipated expenditures for the vendors below utilizing an awarded LISD eligible cooperative contracts:
 - Primary:
 - Howard Technology Solutions, CDWG, Troxell, Southern Computer Warehouse, B&H Photo
 - Secondary:
 - Howard Technology Solutions

Timeline/Report:

- Anticipated project timeline: June 2019 through December 2019
