

Lewisville High School's 2021

SUMMER CAMPS

Select From 30 Lewisville High School Summer Camps!

Let your child experience the fun of working with our high school coaches, teachers, and student leaders, while improving their athletic skills and academic achievement! <http://bit.ly/LHSSUMMERCAMPS2021>

We offer sports camps, academic camps, cheer and dance camps, art camps, baking camps, science camp, PSAT/SAT prep camps, CAMP INVENTION, and much more! Browse through this booklet and sign your child up to attend! Please note each camp has different information.

A separate registration form is needed for each camp you sign up to attend. The registration form is found on the last page of the booklet, so print out as many as you need!

If you have any questions, contact each camp's director at the number or email on each camps information box.

If you are unable to reach the camp director, you may contact Allison Stamey, Student Activities Director at stameya@lisd.net, 469-948-3120, or 214-543-6717.

CAMP INVENTION ... RECHARGE AT HOME!

In partnership with the National Inventors Hall of Fame® (NIHF), Lewisville High School is pleased to offer the nationally acclaimed Camp Invention® program to children entering kindergarten through sixth grade. This exciting, weeklong summer adventure provides opportunities for open-ended exploration of science, technology, engineering and more! Children rotate through a variety of hands-on activities each day while collaborating with friends to think creatively and invent their own solutions to real-world challenges.

The week begins on July 12-16th with Nicole Franczvai serving as Director, and the 2021 program lineup is the best yet, so whether your child is a new or returning camper, they are in for an amazing week full of new discoveries and a-ha moments!

During this energizing program, young innovators (aka campers) will:

- Design morphing vehicles to travel across land, then find inspiration in nature to add prototype elements for moving through air and water.
- Experiment with fun physics concepts like trajectory and velocity as they build, test and modify a device to launch rubber ducks to reach international landmarks.
- Make and adopt their own robotic crickets and apply empathy to build customized habitats and protective gear for their solar-powered bots.
- Reverse engineer their own wireless microphone to discover sound waves, then use their unique voice to create and promote an extraordinary invention.

Register by March 31st for \$40 off using code SUM40

Register by April 30th for \$40 off using code SUM30

Register by May 26th for \$25 off using code SUM25
