

## USIN MRI/CT/PET Program

**What is USIN?** USIN is the advanced imaging benefit program for eligible TRS-ActiveCare participants. Eligible participants can access this high-quality network offered by USIN for MRI, CT and PET scans, and save substantially on out-of-pocket costs.

**Which Participants are Eligible?** Participants in TRS-ActiveCare 1, TRS-ActiveCare 2 and TRS-ActiveCare Select (statewide). TRS-ActiveCare Whole Health participants (those in regional accountable care organizations) are not eligible for the USIN program.

**Potential Significant Out-of-Pocket Savings.** Participants may save significantly on their out-of-pocket costs — up to \$300 per scan or more. Last year, TRS-ActiveCare participants saved over \$400,000 in out-of-pocket costs by choosing the USIN advanced imaging program.

**What Should a Participant Do? USIN will call the Participant.**

After the doctor's office submits the imaging request to Aetna and the image is pre-authorized, if a lower-cost alternative is available the USIN concierge desk will call the participant directly within 24 hours. Simple as that!

**USIN Concierge Desk Services:** The USIN concierge desk provides the following services **at no charge**:

- Options on where to have a MRI/CT/PET scan, all in high-quality, certified facilities
- Appointment scheduling at a convenient date, time and location to the participant
- Guidance about what to expect during the exam and how to prepare
- Follow up with a written appointment confirmation, directions to the facility and important exam day reminders

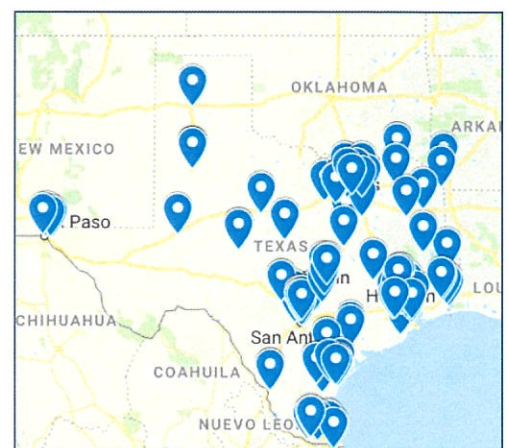

**Helpful Hint:** Add USIN's concierge desk number (214-561-1721) to your phone contacts so you'll know when USIN is calling.

**USIN currently has over 200 facilities in the State of Texas alone, and over 2,100 nationwide. See Texas map.**
