Thank you for downloading this freebie!

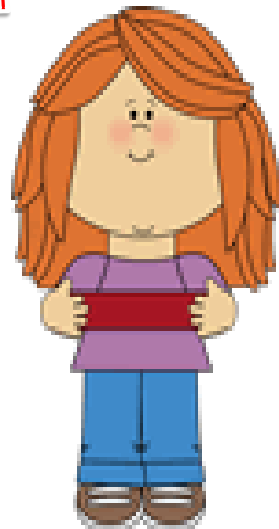

I created this product when I started playing this game in class and realized I needed to make some cards for it quickly! I made them on index cards and then when I got home that evening I made these. Please let me know if I need to improve the cards in any way!

The polka dotted border is from:

The font is from:

Find Your Fact Family

- Before you begin the game, explain that there must be four members in your family (unless it's a double fact), and that each member has to share the same three numbers.
- It's best to copy the cards on cardstock and laminate them. Then cut them out and keep in sets.
- Count out the sets of cards that you'll need. For instance: If you have 20 students, you'll need 5 sets of fact families.
- Have some kind of music ready to play before you begin the game.
- Each student is given a card with a fact on it. (no one else sees it).
- Play music, and when the music stops, say "find your family."
- Once students have found all the members of their family, they sit down.
- Have a couple of the "families" explain how they found their "family".

$$1+3=4$$

$$3+1=4$$

$$4-3=1$$

$$4-1=3$$

$$2+3=5$$

$$3+2=5$$

$$5-2=3$$

$$5-3=2$$

$$4 + 2 = 6$$

$$2 + 4 = 6$$

$$6 - 2 = 4$$

$$6 - 4 = 2$$

$$5 + 2 = 7$$

$$2 + 5 = 7$$

$$7 - 2 = 5$$

$$7 - 5 = 2$$

$$5+3=8$$

$$3+5=8$$

$$8-3=5$$

$$8-5=3$$

$$7+2=9$$

$$2+7=9$$

$$9-2=7$$

$$9-7=2$$

$$6+4=10$$

$$4+6=10$$

$$10-6=4$$

$$10-6=4$$

$$7+4=11$$

$$4+7=11$$

$$11-4=7$$

$$11-7=4$$

$$8+4=12$$

$$4+8=12$$

$$12-4=8$$

$$12-8=4$$

$$9+4=13$$

$$4+9=13$$

$$13-4=9$$

$$13-9=4$$

$$6+8=14$$

$$8+6=14$$

$$14-6=8$$

$$14-8=6$$

$$7+8=15$$

$$8+7=15$$

$$15-7=8$$

$$15-8=7$$

$$9 + 7 = 16$$

$$7 + 9 = 16$$

$$16 - 9 = 7$$

$$16 - 7 = 9$$

$$9 + 8 = 17$$

$$8 + 9 = 17$$

$$17 - 9 = 8$$

$$17 - 8 = 9$$

$$10+8=18$$

$$8+10=18$$

$$18-8=10$$

$$18-10=8$$

$$9+10=19$$

$$10+9=19$$

$$19-9=10$$

$$19-10=9$$

$$11 + 9 = 20$$

$$9 + 11 = 20$$

$$20 - 11 = 9$$

$$20 - 9 = 11$$
