

**Fun STEM Camp
grade 6-12
in Lewisville ISD area**

First Methodist
Carrollton, TX

Instructor: Dr. Albert Fung
Ph.D. from Columbia University, New York

This camp shows STEM (Science, Tech, Engineering, Math) in fun and useful ways, with real-life examples from sports, music, and everyday life. There will be STEM tips, problem solving through critical thinking, and STAAR test practice.

After this camp, students will appreciate the use of STEM in the world, and spend more time studying homework and tests. This camp motivates them to achieve higher grades and better exam scores. Moreover, students will learn something about real life. Please see next page for details on camp activities.

Seats are limited. First come first served. Get the early bird discount by November 3, 2019. Please check our web site often for the latest camp dates and early bird discount in your area.
