

DATE: January 22, 2015

TO: Jason Mullin, Assistant Principal

SUBJECT: Marcus HS - IAQ - Initial Contact - Room K-116 - Boy's Track Locker
Room Shower

The Boy's Track Locker Room Shower had mold all over the ceiling. On Wednesday 1/21, I had Darin Bowden, from Apex Titan, to inspect the area for Remediation. On Friday 1/30 at 4:00 PM, ARC Abatement INC, will start the remediation. Only the shower area will be under containment, so the rest of the locker room can still be used. Clearance testing should be on Monday, February 2, with the results coming that day or Tuesday February 3. Keith Templin will be in charge of the build back, which should be about three to four weeks, depending on the contractor's ability to get product and schedule.

If you have any questions, please contact me.

Thanks,
Paul
