TO: Patricia Cheatham, Principal

SUBJECT: Vickery ES - IAQ - Water test - Playground

Today 5/19 1:00 PM, I received a phone call from John Knowles asking about testing bad smelling water on the playground. I contacted our Testing Company about a water test, and how soon one could get done. I submitted a P.O. request this afternoon, for a water test tomorrow afternoon. Should have the test results back by the end of the week. If you have any questions, please contact me.

Thanks,
Paul
