

# Computer Programming Classes

GRADES 2 - 5

**TIME:** Mondays 3:00PM - 4:00PM starting January 27

**PLACE:** Independence Elementary School

**COST:** \$216.00 for 12 sessions

**CLASS OVERVIEW:** Coding in Scratch, Grades 2 - 5

In this class, students will make creative games and animations using Scratch. Scratch is built for beginners and builds the fundamentals for moving into more advanced programming languages. By the end of our class, students will have a small portfolio of games and animations to show off to friends and the skills to build their own. No coding experience required. Our theme for the upcoming semester is "The Wild West." Students who worked with us previously will advance and work on new projects and challenges.
