9/14/20

LISD Parent/Staff Member,

This is to inform you that an individual on our campus has tested positive for COVID-19. Any person identified who had a prolonged exposure with this individual, will be notified and given the appropriate protocol to follow based upon the most current public health guidelines and in consultation with the Denton County Health department.

In response to this lab-confirmed COVID-19 diagnosis, we have implemented cleaning and disinfection procedures compliant with the CDC guidelines and continue with the protocols that mitigate the spread of this virus:

- Social Distancing
- Frequent handwashing/hand sanitizing
- Monitoring students and staff for signs and symptoms of COVID-19 or exposure to COVID-19

We ask all our families, students, and staff members to vigilantly monitor themselves continuously for COVID-19 symptoms, during the school day and prior to coming to campus. The most common signs and symptoms of COVID-19 are fever, cough, and shortness of breath or difficulty breathing. Individuals should also monitor for muscle aches, fatigue, sore throat, chills, headache, runny nose, abdominal pain/discomfort, nausea, vomiting, or diarrhea.

If you have any questions or concerns regarding the health of yourself or your child, please contact your medical provider.

LISD continues to focus on providing an in person learning experience with the cooperation and collaboration of our parents, students, and staff members. We truly are ALL in this TOGETHER to keep our schools as safe as possible during the pandemic.

Thank you for your assistance.

Gary Holt, Principal, Durham Middle School
