

Good morning Pony Family,

As this first nine weeks of school comes to a close, I want to touch base with you about visitors to our campus during the second nine weeks of school, which started on Tuesday, Oct. 12.

As part of our Tier 1 mitigation efforts, students are socially distanced as much as possible at lunch. LISD is continuing to limit visitors to the campus, including at lunch time, to help maintain that social distancing. The district is continually monitoring conditions related to COVID in our community and is adjusting mitigation measures as circumstances change.

We know everyone enjoys visits to campus, particularly for lunch, and we are just as eager to return to limited restrictions related to visitors on our campus. For the most up to date information, including FAQ's and the latest mitigation measures, visit:
