LEWISVILLE INDEPENDENT SCHOOL DISTRICT

INTRODUCTORY
SECTION

REAL INNOVATION
LIMITLESS OPPORTUNITY
LEWISVILLE INDEPENDENT SCHOOL DISTRICT

December 14, 2020

To the Board of Trustees and the Citizens of the Lewisville Independent School District:

The Texas Education Code requires that all school districts file a set of financial statements with the Texas Education Agency (TEA) within 150 days of the close of each fiscal year. The financial statements must be presented in conformity with generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accountants in accordance with generally accepted auditing standards. Pursuant to this requirement, we hereby issue the Comprehensive Annual Financial Report of the Lewisville Independent School District (the District) for the fiscal year ended August 31, 2020.

This report consists of management’s representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the District have been audited by Whitley Penn L.L.P., a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended August 31, 2020, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District’s financial statements for the year ended August 31, 2020, are fairly presented in conformity with GAAP. The independent auditor’s report is presented as the first component of the financial section of this report.

The independent audit of the financial statements is part of a broader, federally mandated “Single Audit” designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditors to report not only on the fair presentation of the financial statements but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports may be found in the Federal Awards section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District’s MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

Lewisville ISD includes all the funds of the District, as well as any component units for which the District is financially accountable.

Lewisville ISD is an independent public educational agency operating under applicable laws and regulations of the State of Texas providing a full range of educational services appropriate to grade levels ranging from pre-kindergarten through grade twelve. LISD is located north of the Dallas/Fort Worth Metroplex. LISD encompasses 127 square miles and is made up of all, or part of, thirteen different communities: Lewisville, Flower Mound, The Colony, Highland Village, Double Oak, Copper Canyon, north Carrollton, western Plano, and portions of Frisco, Hebron, Coppell, Grapevine, and Argyle. The District is comprised of five high schools, three 9th grade campuses, two 9th-10th grade campuses, two career centers, one learning center, fifteen middle schools, forty elementary schools and one early childhood center. The majority were built within the past 20 years, keeping pace with rapid growth.

During the current fiscal year, the District served more than 51,500 enrolled students. Since the 2009-2010 school year, the District’s student enrollment grew by over 900 students. The District’s growth in student enrollment has begun to stabilize and slightly decline from the rapid growth experienced in the past.

The seven members of the Board of Trustees (Board) serve, without compensation, a three-year term in office. On a rotating basis, two or three places are filled during annual elections held the first Saturday in May. Vacancies may be filled by appointment until the next election. The Board has final control over local school matters limited only by the state legislature, by the courts, and by the will of the people as expressed in school Board elections. Board decisions are based on a majority vote of those present. In general, the Board adopts policies, sets direction for curriculum, employs the Superintendent, and oversees the operations of the District and its schools. Besides general Board business, Trustees are charged with numerous statutory regulations including calling trustee and other school elections and canvassing the results, organizing the Board, and electing its officers. The Board is also responsible for setting the tax rate, setting salary schedules, and acting as a board of appeals in personnel and student matters, confirming recommendations for textbook adoptions, and adopting and amending the annual budget.

EDUCATION

The District is a public-school system whose mission recognizes that students, staff and community design and implement a learning organization that provides engaging, innovative experiences every day. Recognizing that the quality of life, both today and in the future, depends upon the quality of education provided by the public schools, the Lewisville Independent School District is dedicated to education and committed to meeting the needs of every individual. The District's vision is built on four cornerstones:

- **Student Learning**
 - Profound learning for students occurs when we provide meaningful and relevant educational opportunities.
 - In LISD, we are preparing the dreamers to be the doers by developing engaged, collaborative learners who are equipped for success.
- **Student Experience**
 - A thriving student experience comes from an environment that engages and connects students to each other and with staff.
 - In LISD, we know students thrive when they are engaged in their learning and feel a sense of belonging in our schools.
 - When students are provided enriching opportunities outside the classroom, they will find success not only in school but in their lives beyond our hallways.
- **Community Engagement**
 - We believe education is a shared responsibility between our district and the communities we serve.
 - Community engagement is critical to the success of LISD.
 - Through intentional strategic partnerships at the campus and district level, we can tap into the deep well of community support for LISD to forge stronger bonds with our stakeholders and develop relationships to benefit schools, local businesses and the community.
- **Resource Stewardship**
 - In LISD, when we say we want to be good stewards of our resources, we aren't just talking about taxpayer dollars.
 - Resource stewardship is about three things: our time, talent and treasure.
 - Strike a positive work/life balance with our time;
 - Nurture our talents as educators through meaningful professional learning;
 - Manage our treasure in a fiscally responsible way while still meeting student needs.

The District is dedicated to enriching education opportunities for our students and leading the way in classroom technology integrations. Utilizing groundbreaking, transformative and flexible learning environments through use of technology and initiative programs to provide our students the tools to access, create and collaborate as thriving, 21st century digital citizens.

FINANCIAL POLICIES

Internal Controls. The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of "reasonable assurance" recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

Budgetary Controls. In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Board of Trustees. Every school district in Texas is required, by law, to prepare and file a budget with the Texas Education Agency. Activities of the General Fund, Food Service Fund, and Debt Service Fund are included in the District's formally adopted budget. Budgets for Special Revenue funds (other than the Food Service Fund) and Capital Projects Fund are prepared on a project basis, based on grant regulations or applicable bond ordinances. Budgetary control (the level at which expenditures cannot legally exceed appropriations) is maintained at the functional category level within each fund. These functional categories are defined by the Texas Education Agency and identify the purpose of transactions. Oversight control of all expenditures is maintained at this level by the Accounting and Budget staff.

The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Outstanding encumbrances at the end of a fiscal year are rolled forward into the subsequent fiscal period with the budget amended accordingly. As demonstrated by the statements and schedules included in the financial section of this report, the District continues meeting its responsibility for sound financial management.

MAJOR INITIATIVES

Capital Projects. In May 2017, voters of the District approved a \$737.5 million bond referendum designed to finance the construction, acquisition and equipment of school buildings in the District and the purchase of the necessary sites for school buildings. In the fiscal year ended August 31, 2020, the District issued Unlimited Tax School Building Bonds, Series 2020, resulting in a \$285.0 million deposit to the Capital Projects Fund. The bond proceeds were issued for construction and renovation of school buildings and equipment and major technology upgrades throughout the District.

Debt Portfolio Management. During the fiscal year, the District called a portion of the previously issued Unlimited Tax Refunding bonds, Series 2012A and 2012B for Redemption Prior to Maturity. These called bonds in the amount of \$33.4 million and \$11.2 million were redeemed prior to maturity. The District utilized funds from its Debt Service Fund balance for the purpose of this debt reduction. This redemption prior to maturity reduced future interest costs by \$9.1 million.

The District has issued its bonds on a relatively short repayment period of twenty years. District personnel continually work with the District's Financial Advisors to monitor the interest rate market and the outstanding debt portfolio for opportunities for interest savings.

Relevant Financial Policy. The Board recognizes the importance of maintaining sufficient fund balance to sustain the District through uncertain economic times. Acknowledging that the District's financial position is impacted greatly by the legislature's actions and the level of the state's available resources, the Board has been proactive in building the District's fund balances over time. In June 2019, the Board adopted a resolution delegating to the Superintendent or his designee authority to assign fund balance in an amount equivalent to three months operating expenditures in the General Fund. The Resolution further established the District's target optimum fund balance an amount equivalent to ten percent of the annual debt service required on bonds approved by the voters of the District as its minimum fund balance in the Debt Service Fund each year. Those parameters are designed to assure a strong financial position in the event of reductions in enrollment, tax revenues or other funding sources.

The District's fund balance at August 31, 2020, in both the General Fund and the Debt Service Fund exceed these parameters.

Long-term Financial Planning. The District has grown the fund balance to ensure that the needed resources are available to provide for the slight enrollment declines and unexpected situations. Projections assumed in budgeting for the subsequent fiscal year include:

- The Maintenance and Operations tax rate will be reduced to \$0.9664 per \$100 valuation for the fiscal year ending August 31, 2021.
- The District is expected to be subject to recapture payments under Chapter 49 of the Texas Education Code for the fiscal year ending August 31, 2021, in the amount of \$32.4 million.
- The District has experienced growth in taxable property values of approximately 6.5 percent. This increase is expected to result in increased ad-valorem tax collections. Approximately 7.4 percent of ad-valorem tax collections is expected to be paid to the State in the form of recapture payments for the fiscal year ending August 31, 2021.
- Due to COVID-19 student enrollment growth for fiscal year 2021 is expected to decrease by seven percent.

ECONOMIC CONDITION AND OUTLOOK

In an effort to stabilize funding expectations, the TEA recently advised districts that for the school year 2020-2021 it would institute the ADA hold harmless (grace period) for the first two six-week attendance reporting periods as follows: if an LEA's Refined ADA counts during those first two six-week reporting periods are less than the ADA hold harmless projections, the first two six-week attendance reporting periods for FY2021 would be excluded from the calculation of ADA and student FTEs for Foundation School Program funding purposes and will be replaced with the ADA hold harmless projections. The ADA hold harmless methodology is a three-year trend projection using final ADA numbers from the 2017-2018 LPE projections. Districts have several options for determining daily attendance. These include, remote synchronous instruction, remote asynchronous instruction, on campus instruction, and the Texas Virtual Schools Network. If ADA counts during those two six weeks are more than 1% less than the first two six weeks of the 2019-2020 school year, the first two six weeks will be excluded from 2020-2021 ADA calculations, subject to some restrictions. In addition to this grace period, districts will also have an attendance grace period for remote asynchronous instruction plan approval, which continues through the end of the third six weeks. Following the initial grace period, the return to funding based on ADA calculations requiring attendance to be taken during the pandemic may have a negative impact on revenues available to the District for operations and maintenance if students do not take part in the instruction options made available by the District. The District has selected in-person instruction as their method of instruction, while providing a virtual learning option for families who choose not to return for in-person instruction.

Communities within the Lewisville ISD have partnered with two major organizations, the Denton County and the Texas Association of Business, among others, to provide assistance and guidance to the communities during the challenges presented due to COVID-19. In May 2020, the Denton County Operational Plan for Economic Normalization started offering grants up to \$10,000 to local businesses. The goal of the program is to assist local businesses that have been closed the longest and negatively impacted by the COVID-19 pandemic. In June of 2020, the Texas Association of Business assembled over 25+ business leaders, human resources executives, medical and mental health experts, legal, governmental, and consulting experts, researchers and survey experts to engage in dialog to discuss ways to gather data and to capture best in class information to assist and help employers work with and communicate with their employees during the COVID-19 pandemic as they began the effort to return to work or to continue to work remotely based on the guidance of the State of Texas to re-engage in the economy.

In compliance with the disaster declarations recently signed by Denton County Judge Andy Eads and Mayor Rudy Durham, due to the COVID-19 disease outbreak, the Building Services Department has worked together with local businesses to continue operations as safely as possible in various ways. First, all permit applications, inspections requests, and online payments are accepted electronically only. A checklist was provided by the Texas Department of State Health Services and reviewed by Denton County staff for compliance with the executive order signed by the City of Denton County as efforts continue to protect the wellbeing of city staff.

The City of Lewisville issued more than 3,900 building permits during May of 2020 and August 31, 2020; more than 342 were issued during the June and July months for new single-family home construction, the remainder were a combination of new construction for business and remodeling for both residential and commercial. Construction began on Tower Bay Lofts in early 2019, a resort-style luxury apartment development with more than 300 units near Lewisville Lake, east of I-35E, north of Garden Ridge Boulevard. Planned amenities included an enclosed parking garage, a sky lounge that includes an indoor/outdoor kitchen, and an outdoor television wall. The final passing inspection for this project was issued on August 31, 2020. In May 2020, construction began on Villas at Rockbrook, a private, gated single-family rental community located in Lewisville with easy access to I-35E, Highway 121 and the DART Hebron Station only 30 minutes from downtown Dallas and 10 minutes from DFW International Airport. Final passing inspections for this project were issued on August 10, 2020.

AWARDS

The School Financial Integrity Rating System of Texas (FIRST) program, a financial accountability system for Texas school districts, was developed by the Texas Education Agency in response to Senate Bill 875 of the 76th Texas Legislature in 1999. The primary goal of FIRST is to measure quality performance in the management of school districts' financial resources, a goal made more significant due to the complexity of accounting associated with the Texas school finance system. The District received a rating of A=Superior under Texas' Schools FIRST financial accountability rating system. This is the state's highest financial rating, demonstrating the quality of the District's sound fiscal management and reporting system. The District has achieved the highest available rating each year since the inception of the FIRST program.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report for the fiscal year ended August 31, 2019. This was the 20th consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. The report must also satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe the current Comprehensive Annual Financial Report continues to meet the requirements of the Certificate of Achievement Program, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the District was awarded the Certificate of Excellence in Financial Reporting by the Association of School Business Officials International (ASBO) for its Comprehensive Annual Financial Report for the year ended August 31, 2019. This award has also been received for the 20th consecutive year. We believe the Comprehensive Annual Financial Report for the year ended August 31, 2020, continues to conform to the standards for which these awards were granted.

ACKNOWLEDGEMENTS

We appreciate the support of the Board of Trustees, the citizens of the District, and the business community, all who work cooperatively to ensure the best education for its students and the prudent development of the District. This cooperation is indicative of the strong support for the attainment of excellence in the District's educational programs.

Also, we would like to express our appreciation to all employees of the District for their interest and support in planning and conducting the financial affairs of the District in a responsible and progressive manner. The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Finance office.

Respectfully submitted,

Kevin Rogers, Ed.D.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Lewisville Independent School District
Lewisville, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lewisville Independent School District (the "District") as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the discretely presented component unit financial statements of the Lewisville Education Foundation, Inc. as of and for the year ended December 31, 2019. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Lewisville Education Foundation, Inc., is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Lewisville Education Foundation, Inc. were not audited in accordance with *Governmental Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

To the Board of Trustees
Lewisville Independent School District

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Lewisville Independent School District as of August 31, 2020, and the respective changes in financial position, the respective budgetary comparison schedule for the general fund and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-14 and pension information and other post-employment benefit information on pages 73 through 78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information (as described in the accompanying table of contents), are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for the purpose of additional analysis as required by Title 2 *U.S. Code of Federal Regulation (CFR) Part 200, Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards* and other information, such as the introductory and statistical sections, are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information (as described in the accompanying table of contents) and the schedule of expenditures of federal awards are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the other supplementary information (as described in the accompanying table of contents) and the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board of Trustees
Lewisville Independent School District

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Lewisville Independent School District offers readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended August 31, 2020. Readers are encouraged to consider the information presented here in conjunction with the transmittal letter at the front of this report and the District's financial statements, which follow this analysis.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at the close of the fiscal year by \$21.8 million. The deficit in unrestricted net position is due to the District's noncurrent liabilities of \$159 million for the District's portion of the Teacher Retirement System (TRS) net pension liability and \$183 million for the District's portion of the TRS net other post-employment benefits liability.
- The District's total net position increased by \$76.4 million, mainly due to increased property tax revenue and gain on sale of property.
- The District's governmental funds financial statements reported a combined ending fund balance of \$597.9 million. This balance consists of \$181.1 million in the General Fund of which \$126.7 million is assigned and \$53.7 million is unassigned and available for spending at the District's discretion. Restricted fund balance totals \$410.2 million and is used by the Debt Service Fund, Capital Projects Funds and Non-major Funds. Non-spendable fund balance is \$1.4 million, and the remaining balance consists of \$6.0 million committed in the Non-major governmental funds.
- During the fiscal year, the District issued bonds with a par value of \$262.5 million and premium of \$54.9 million in Unlimited Tax School Building and Refunding Bonds for various construction activities.
- The General Fund had \$500.9 million in revenues, which primarily consisted of state aid and property taxes, and \$506.7 million in expenditures, including a payment to the State for recapture in the amount of \$14.6 million. The General Fund did increase fund balance this year by \$16.5 million, largely due to property sales during the year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's financial statements. The financial statements comprise four components: (1) government-wide financial statements, (2) fund financial statements, (3) notes to the basic financial statements, and (4) federal awards section. The statements are followed by a section of other supplementary information that further explains and supports the information in the financial statements. The following chart summarizes the major features of the District's financial statements, including the portion of the District they cover and the types of information they contain.

Also included as a discretely presented component unit is the Lewisville Education Foundation, Inc., a nonprofit organization that provides support to the District, teachers, and students.

<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the District's fiduciary funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter.	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid (not applicable to agency funds)

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The *Statement of Net Position* includes all of the government's assets, deferred outflows, liabilities, and deferred inflows. All of the current year's revenues and expenses are accounted for in the *Statement of Activities* regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets, deferred outflows, liabilities and deferred inflows, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, additional nonfinancial factors, such as changes in the District's tax base, should be considered.

The government-wide financial statements of the District include only governmental activities. The District's basic services included here are instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes, state aid and grants finance most of these activities.

Fund financial statements. The fund financial statements provide more detailed information about the District's most significant funds-not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by state law and by bond covenants, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

- *Governmental funds* - Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explains the relationship (or differences) between them.

The District maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance of the General Fund, the Debt Service Fund and the Capital Projects Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

- *Proprietary funds* - Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The District uses internal service funds to report activities that provide supplies and services for the District's other programs and activities-such as the Workers' Compensation Fund.
- *Fiduciary funds* - The District is the trustee, or fiduciary, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain other supplementary information concerning the District.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position. As noted earlier, net position may serve over time as a useful indicator of a District's financial position. The District's combined net position increased between fiscal years 2020 and 2019 - increasing by \$76.4 million as can be seen on the following table. The District's net investment in capital assets includes its investments in capital assets (e.g. land, building, equipment, improvements, and construction in progress) less any debt, used to acquire those assets that are still outstanding. The District's net investment in capital assets is \$327.8 million.

The District uses these capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

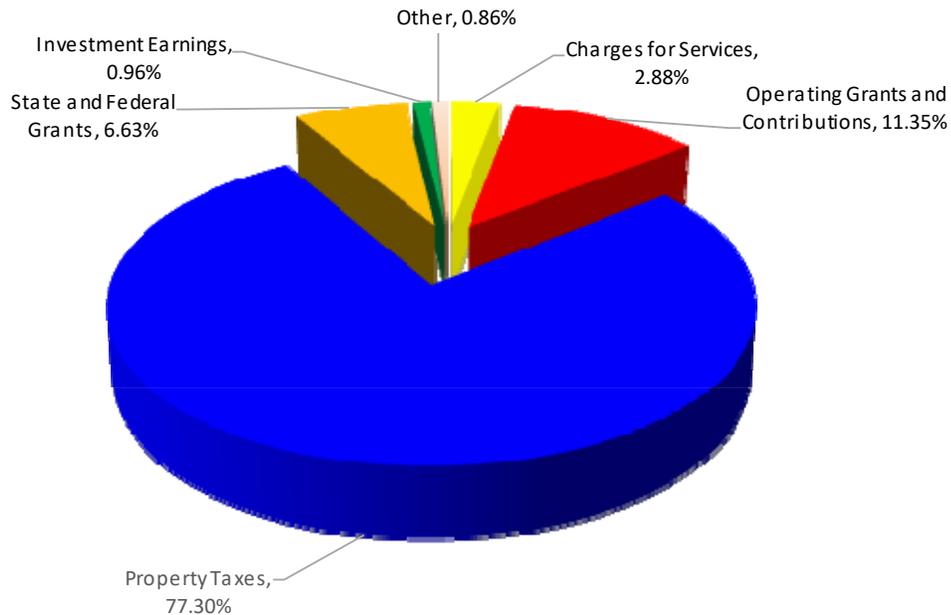

The following table provides a summary of the assets, deferred outflows, liabilities, deferred inflows, and net position for governmental activities for the years ended August 31, 2020 and 2019, respectively.

	<u>2020</u>	<u>2019</u>
Current and Other Assets	\$ 702,320,233	\$ 609,530,314
Capital Assets	1,325,516,748	1,138,653,890
Total Assets	<u>2,027,836,981</u>	<u>1,748,184,204</u>
Total Deferred Outflows of Resources	<u>122,102,945</u>	<u>142,160,158</u>
Current Liabilities	99,441,710	92,198,226
Long-Term Liabilities	1,917,412,276	1,780,813,199
Total Liabilities	<u>2,016,853,986</u>	<u>1,873,011,425</u>
Total Deferred Inflows of Resources	<u>111,269,268</u>	<u>71,919,010</u>
Net Position		
Net Investment in capital assets	327,756,322	213,460,838
Restricted	52,223,170	54,387,883
Unrestricted	(358,162,820)	(322,434,794)
Total Net Position	<u>\$ 21,816,672</u>	<u>\$ (54,586,073)</u>

A portion of the net position is restricted as to the purpose for which they can be used. Unrestricted net position decreased by \$7.2 million.

Changes in net position. The District's total revenues and special items were \$752.3 million representing an increase of \$22.3 million from the previous year. The majority of this increase is caused by the increase in local property tax revenue of \$19.7 million due to higher assessed values on properties. As seen below, approximately 77% of the District's revenue comes from taxes while the remaining comes primarily from state and federal sources.

District Sources of Revenue for Fiscal Year 2020

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Government-Wide Activities

Funding for these government-wide activities is by the specific program revenue or through general revenues such as property taxes and investment earnings. The following is a summary of the governmental funds activities:

- The cost of all *governmental activities* for the year was \$675.9 million, a decrease of \$15.9 million from the previous year.
- Some of the *governmental activities* cost was funded by program revenues directly attributable to specific activities. The program revenues amounted to \$104.4 million, an increase from prior year of \$0.8 million.

The following table presents the cost of the District's largest governmental functions as well as their related net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by local tax dollars, state revenues and other miscellaneous general revenues.

Net Cost of Selected District Functions

	Total Cost of Services	Net Cost of Services
Instruction and Instruction Related Services	\$ 377,152,486	\$ 319,176,045
Support Services Student (Pupil)	80,337,865	56,812,844
Support Services Nonstudent based	63,512,846	59,081,864
Debt Service	41,706,705	41,706,705
	<u>\$ 562,709,902</u>	<u>\$ 476,777,458</u>

As seen in the following schedule:

- The amount that our taxpayers paid for these activities through property taxes was \$567.0 million.
- Those who directly benefited from the programs paid \$21.1 million.
- Operating grants and contributions totaled \$83.3 million.

Support Services Nonstudent Based	63,512,846	54,961,140	15.56%
Ancillary Services	7,879,785	7,320,215	7.64%
Interest and Fiscal Charges	41,706,705	44,136,008	-5.50%
Other Facility Costs	18,059,205	79,980,806	-77.42%
Intergovernmental Charges	18,142,147	33,274,076	-45.48%
Total Expenses	<u>675,866,265</u>	<u>691,815,022</u>	<u>-2.31%</u>
Increase (Decrease) in Net Position	76,402,745	38,215,377	99.93%
Net Position - September 1	(54,586,073)	(92,801,450)	-41.18%
Net Position - August 31	<u>\$ 21,816,672</u>	<u>\$ (54,586,073)</u>	<u>-139.97%</u>

Revenues for the District's governmental activities increased year over year overall by \$22.3 million for the fiscal year ended August 31, 2020. The increase is mainly caused by the increase in property tax revenue of \$19.7 million due to increased property values.

Expenses for the District's governmental activities decreased year over year overall by \$15.9 million for the fiscal year ended August 31, 2020. The decrease is mainly caused by extended closings of campuses due to COVID-19.

The District's combined property tax rate decreased to \$1.3375 per \$100 of assessed value from \$1.4075 per \$100 of assessed value. This generated tax revenues of \$567.0 million in fiscal year 2020, an increase of \$19.7 million over the 2019 fiscal year.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$597.9 million, an increase of \$86.1 million in comparison with the prior year. Approximately 9% of this total amount (\$53.7 million) constitutes an unassigned fund balance, which is available for spending at the District's discretion. The remaining fund balance is not available for spending because it has already been committed, restricted, assigned or is nonspendable. The District has self-imposed a limitation on the use of otherwise available expendable financial resources in governmental funds. The Board has resolved that the District shall not drop below a minimum of three months of expenditures (\$126.7 million) in assigned fund balance in the General Fund. The District has \$355.8 million in restricted unspent bond proceeds in its capital projects fund.

General Fund. The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance for the General Fund was \$53.7 million, while total fund balance was \$181.1 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 10.6% of total General Fund expenditures, while total fund balances represent 35.8% of that same amount.

The District's General Fund balance increased \$16.6 million during the current fiscal year in comparison to an increase in the prior year of \$10.5 million. Local revenues increased by \$3.8 million primarily due to property taxes. State revenues decreased by \$0.5 million.

Debt Service Fund. The Debt Service Fund has a total fund balance of \$47.9 million, all of which is restricted for the payment of debt service. The net increase in fund balance during the current year in the Debt Service Fund was \$1.8 million. During the year the District also issued refunding bonds of \$25.8 million.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The table that follows assists in illustrating the financial activities and balance of the Debt Service Fund.

	<u>2020</u>	<u>2019</u>
Revenues		
Property taxes	\$ 155,804,985	\$ 142,528,196
Investment income	1,094,553	2,692,834
State revenues	1,892,667	1,966,389
Total Revenues	<u>158,792,205</u>	<u>147,187,419</u>
Expenditures by function		
Principal	96,021,916	83,545,665
Interest	91,721,341	58,702,994
Total Expenditures	<u>187,743,257</u>	<u>142,248,659</u>
Other Financing Sources (Uses)		
Refunding bonds issued	25,840,000	-
Net premiums on issuance of bonds	4,960,452	3,845
Total Other Financing Sources (Uses)	<u>30,800,452</u>	<u>3,845</u>
Net change in fund balance	1,849,400	4,942,605
Fund balance - September 1	46,010,722	41,068,117
Fund balance - August 31	<u>\$ 47,860,122</u>	<u>\$ 46,010,722</u>

Capital Projects Fund. The Capital Projects Fund has a total fund balance of \$355.8 million, all of which is restricted for ongoing capital projects. The fund balance increased by \$69.7 million during the current fiscal year due to ongoing construction projects, offset by issuance of \$236.7 million in bonds for construction projects. The District's Capital Projects Fund is used to account for financial resources used for the acquisition or construction of major capital facilities specifically funded by bonds approved by the voters. Further discussion of the current year use of capital projects can be found under the Capital Assets section.

General Fund Budgetary Highlights

In accordance with Board Policy CE (Local), the District submits amendments during the course of the budget year. Approval for budget increases for formally adopted funds shall be made by the Board of Trustees. The Board delegates the authority for approval of budget functional transfers to the budget department. The District's major budget amendments presented to the Board of Trustees throughout the year are summarized as follows:

- *Variances of original expenditure budget compared to amended budget* - The amended expenditure budget increased in the General Fund by \$28.7 million from the original budget.
- *Variances of amended budget to actual expenditures* - Expenditures were \$26.2 million less than final budgeted amounts. Purchased and contracted services were \$11.1 million under budget, a variance of 11.5%. The variance includes utilities, transportation, contracted maintenance projects and other contracted services. Supplies and materials were under budget by \$5.0 million or 29.9%. Due to COVID-19, campuses were closed from early March to May 2020.
- *Variances of original revenue budget compared to actual revenue* - Local revenues were under budget by \$3.3 million. State revenues were \$15.9 million over budget. Federal revenue exceeded budget by \$2.3 million primarily due to Impact Aid and SHARS revenue.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Capital Assets

At the end of 2020, the District invested \$1.3 billion in a broad range of capital assets, including land, equipment, buildings, and construction in progress. This amount represents a net increase of \$187 million or 16.4% from last year.

Major capital assets events begun during the current year included the following:

New Hebron HS Refresh	Prairie Trail Elementary 20 Year Refresh
Bridlewood Elementary School Refresh	Forest Vista Elementary 20 Year Refresh
Middle School Fine Arts Additions – 2 campuses	Southridge Elementary 20 Year Refresh
New Bridlewood STEM	Flower Mound High School Refresh
Emergency Responder System – 10 campuses	AG Barn Extension
Lewisville High School Athletic Ancillary Refresh	The Colony High School Blackbox Theatre Addition

Listed in the table below are the capital assets for governmental activities for the fiscal year ended August 31, 2020 and 2019, respectively:

	2020	2019	Total % Change
Land	\$ 103,359,677	\$ 111,236,031	-7.08%
Buildings and Improvements	1,605,712,241	1,398,856,098	14.79%
Vehicles	32,624,701	4,019,221	711.72%
Furniture and Equipment	26,828,050	25,340,628	5.87%
Construction in Progress	87,679,756	86,989,254	0.79%
Total at Historical Cost	<u>1,856,204,425</u>	<u>1,626,441,232</u>	<u>14.13%</u>
Less accumulated depreciation for:			
Buildings and Improvements	510,423,284	469,643,600	8.68%
Vehicles	3,771,860	2,716,233	38.86%
Furniture and Equipment	16,492,533	15,427,509	6.90%
Total Accumulated Depreciation	<u>530,687,677</u>	<u>487,787,342</u>	<u>8.79%</u>
Net capital assets	<u>\$ 1,325,516,748</u>	<u>\$ 1,138,653,890</u>	<u>16.41%</u>

Additional information on the District's capital assets can be found in Note 5 of this report.

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Debt Administration

- At the end of the 2019-2020 fiscal year, the District had total bonded debt of \$1,571,032,794, an increase of 11.0% percent from the prior year. During the fiscal year, the District issued \$262.5 million in school building and refunding bonds with a premium of \$54.9 million.
- The District continues to enjoy excellent bond ratings. The District's bonds presently carry very favorable ratings as follows:
 - Standard and Poor's "AA+"
 - Fitch Investor Service "AA+"

More detailed information about the District's debt is presented in the Notes to the Financial Statements (Note 9).

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The local economy continues to monitor the spread of COVID-19 and is working with local businesses to establish strategies should the pandemic continue. The 2020-2021 appraised property values increased by approximately 6%. The passage of House Bill 3 by the 86th Texas Legislature changed the State funding formulas to focus primarily on revenues deemed appropriate for various categories of student instructional settings. The funding for the District as projected under the provisions of House Bill 3 results in approximately similar amounts of available revenues with an increase in the projected recapture payments of approximately \$15 million over prior. The District is expecting to pay recapture payments to the State in accordance with Chapter 49 of the Texas Education Code in the amount of \$32.4 million.

The Maintenance and Operations (M&O) tax rate decreased from \$0.97 per \$100 valuation to \$0.9664 per \$100 valuation for the 2020-21 fiscal year in accordance with requirements of state law. The Interest and Sinking (I&S) tax rate increased from \$0.3675 per \$100 valuation to \$0.3809 for the 2020-21 school year. Due to COVID-19, the District's student enrollment is expected to decline from 51,575 to 49,111 for fiscal year 2020-2021.

General Fund expenditures are budgeted to increase by \$38 million or 7.7 percent over the prior year budgeted expenditures. Major expenditure changes include a salary increase for teachers, a one-time pay for each district employee, new positions, increases for substitutes pay and recapture payments of \$32 million.

If the estimates are realized, the District's budgetary General Fund balance is expected to decrease by \$12.3 million by the close of 2021 fiscal year.

Request for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Chief Financial Officer at Lewisville Independent School District Administrative Center, 1565A West Main Street, Lewisville, TX 75067.

RECONCILIATION OF BALANCE SHEET FOR GOVERNMENTAL FUNDS TO
STATEMENT OF NET POSITION
August 31, 2020

Exhibit C-1R

Data Control Codes		
	Total fund balance, governmental funds	\$ 597,898,624
	Amounts reported for governmental activities in the statement of net position (A-1) are different because:	
1	Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	1,856,204,425
2	Accumulated depreciation has not been included in the governmental fund financial statements.	(530,687,677)
3	Property taxes receivable have been levied and are due this year, but are not available soon enough to pay for the current period's expenditures, these property taxes and related penalty and interest amounts (net of allowance for uncollectible accounts).	4,523,683
4	Deferred charges on refunding	21,551,211
5	Deferred inflows and outflows related to pension liability	42,626,624
6	Deferred inflows and outflows related to OPEB liability	(53,344,158)
	Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:	
7	General obligation bonds	(1,405,027,596)
8	Premiums on issuance	(133,987,138)
9	Accreted interest on premium compound interest bonds	(32,018,060)
10	Accrued compensated absences	(3,135,613)
11	Accrued interest payable	(2,524,815)
12	Net pension liability	(159,467,259)
13	Net OPEB liability	(183,776,610)
19	Addition of Internal Service fund net position	<u>2,981,031</u>
	Total Net Position - Governmental Activities	<u><u>\$ 21,816,672</u></u>

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
For the Year Ended August 31, 2020

Exhibit C-3

<u>Data Control Codes</u>		
	Net change in fund balances - total governmental funds (from C-2)	\$ 86,062,351
	Amounts reported for governmental activities in the statement of activities (B-1) are different because:	
	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
1	Governmental funds capital outlay	240,051,646
2	Governmental activities depreciation expense	(45,199,657)
3	Governmental funds report the entire sales price from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain or loss on the sale of the assets.	(7,989,131)
4	Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(472,029)
5	Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	96,021,916
6	Proceeds from issuance of refunding and building bonds of (\$262,515,000) and premium on long-term debt of (\$54,925,800) is reported as an other financing source in the governmental funds.	(317,440,800)
7	Pension and OPEB contributions made after the net pension and OPEB liabilities date are reported as expenditures in the governmental funds and are reported as deferred outflows on the face of the statement of net position.	12,045,444
8	Increase in interest payable is not recognized in the fund statements.	(318,168)
9	Refunded debt is recorded in the government funds as an expenditure but represents a decrease in debt in the government-wide financial statements.	31,401,524
10	To recognize the net effect of the bond refunding including the associated bond premium, accreted interest on capital appreciation bonds, and deferred loss.	8,509,724
	Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:	
11	Amortization of premiums, deferred charges on refunding	13,974,147
12	Capital appreciation bonds matured and related accreted interest	(1,937,244)
13	Pension expense for the pension plan measurement year	(32,633,729)
14	OPEB expense for the OPEB plan measurement year	(5,643,912)
15	Increase in long term compensation absences	(303,618)
16	Internal service funds are used by management to charge the costs of certain activities, such as insurances, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental funds. (see D-2)	274,281
	Change in net position of governmental activities (see B-1)	<u>\$ 76,402,745</u>

Note 1 - Summary of Significant Accounting Policies

Lewisville Independent School District (the "District") is an independent public educational agency operating under applicable laws and regulations of the State of Texas. The District is autonomously governed by a seven-member Board of Trustees elected by the District's residents.

The District prepares its basic financial statements in conformity with U.S. generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in Statement on Auditing Standards No. 69, as amended by Statement on Auditing Standards No.'s 91 and 93 of the American Institute of Certified Public Accountants; and it complies with the most recent requirements of the Texas Education Agency's Financial Accountability System Resource Guide (the "Resource Guide" or FASRG) and the requirements of contracts and grants of agencies from which it receives funds.

Reporting Entity

The Board of Trustees ("Board"), a seven-member group, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the District. The public elects the trustees. The trustees as a body corporate have the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("Agency") or to the State Board of Education are reserved for the trustees, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the trustees. The District is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards. The financial statements of the District include all activities for which the Board exercises these governance responsibilities.

For financial reporting purposes, in conformance with governmental accounting standards, the District includes all funds of the District, as well as any component units for which the District is financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's board, and either (1) the ability to impose will by the District, or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the District. In accordance with GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, the District has determined that the Lewisville Education Foundation, Inc. ("LEF") should be included in the District's financial statements and reported as a discretely presented component unit.

The discretely presented component unit is reported in a separate column in the financial statements to emphasize it as legally separate from the District. LEF is a nonprofit organization with the purpose of providing financial support to the District, teachers, and students. LEF is governed by a 22-member Board of Trustees, who represents a cross section of the community served by the District. All voting members are independent of the District; however, District administrators serve as ex-officio Board members. The accounting and reporting policies relating to the component unit included in the financial statements conform to the generally accepted accounting principles applicable to state and local governments. A copy of the complete separately audited financial statements as of and for the year ended December 31, 2020, can be obtained from Lewisville ISD Education Foundation, Inc., 1565C W. Main Street, Lewisville, Texas 75067.

The District receives funding from local, state, and federal government sources and complies with the requirements of these funding source entities.

Note 1 - Summary of Significant Accounting Policies (continued)

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities. Internal service fund activity is eliminated to avoid overstatement of revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. Business-type activities include operations that rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers who directly benefit from the services provided by that function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a function. Taxes and other items properly not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. The District reports only one internal service fund as a proprietary fund. Internal service funds are never considered major funds.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds. Agency funds also use the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants are recognized as revenue as the eligibility requirements imposed by the provider have been met. The effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental funds utilize the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recorded when they are susceptible to accrual, which means they must be both available and measurable. Revenues are considered to be available when they are expected to be collected during the current budgetary period or within 60 days thereafter to pay liabilities outstanding at the close of the budgetary period.

Interest revenue and building rentals are recorded when earned since they are measurable and available. Other revenues such as fees, tuition, and miscellaneous revenues are recorded when received.

Fund Accounting

Governmental Funds

Revenue from investments, including governmental external investment pools, is based upon fair market value. Fair market value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Most investments are reported at amortized cost when the investments have remaining maturities of one year or less at time of purchase. External investment pools are permitted to report short term debt investments at amortized cost, provided that the fair market value of those investments is not significantly affected by the impairment of the credit standing of the issuer, or other factors. For that purpose, a pool's short-term investments are those with remaining maturities of up to ninety days.

Note 1 - Summary of Significant Accounting Policies (continued)

Fund Accounting (continued)

Under the modified accrual basis, expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for principal and interest on long-term debt, which is recognized when due.

District accounts are organized on the basis of funds, each of which is considered a separate accounting entity. The District has established several funds that are organized by sub-funds within a separate set of self-balancing accounts comprised of assets, liabilities, fund balance, revenues, and expenditures or expenses as appropriate. Governmental resources allocated to individual funds are recorded for the purpose of carrying on specific activities in accordance with laws, regulations, or other appropriate requirements.

The District reports the following major governmental funds:

General Fund - The District's primary operating fund. This fund is established to account for resources financing the fundamental operations of the District, in partnership with the community, in enabling and motivating students to reach their full potential. All revenues and expenditures not required to be accounted for in other funds are included here. This is a budgeted fund and any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities.

Debt Service Fund - This fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. This is a budgeted fund, and a separate bank account is maintained for this fund. Any unused sinking fund balances are transferred to the General Fund after all of the related debt obligations have been met.

Capital Projects Fund - This fund is established to account for proceeds, on the modified accrual basis, from the sale of bonds and other resources to be used for Board authorized acquisition, construction, or renovation, as well as, furnishing and equipping of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.

In addition, the District reports the following funds:

Special Revenue Funds - These governmental funds are established to account for programs or expenditures legally restricted for specified purposes and Food Service Program transactions.

The District's Food Service Fund is considered a special revenue fund since it meets the following criteria: (1) User fees are charged to supplement the National School Lunch Program ("NSLP"), (2) The General Fund subsidizes the Food Service Program for all expenditures in excess of NSLP and user fees, and (3) The District does not consider the Food Service Program completely self-supporting. Food Service fund balances are used exclusively for child nutrition program purposes.

Internal Service Fund - The District utilizes an Internal Service Fund, a proprietary fund, to account for its workers' compensation self-insurance plan.

The District continues to fully provide for incurred but not reported costs for workers' compensation claims through the establishment of undiscounted liability accounts and net position.

Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The operating revenues of the self-insurance fund are received from both the General and Special Revenue Funds, and its operating expenses are comprised of claims paid on behalf of District employees.

Note 1 - Summary of Significant Accounting Policies (continued)

Fund Accounting (continued)

Operating expenses also include administrative expenses and depreciation on capital assets. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The internal service fund is accounted for on a flow of economic resources measurement focus. Accordingly, the accrual basis, whereby revenues and expenses are identified in the accounting period in which they are earned and incurred, and net income is determined, is utilized for this fund. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations.

Agency Fund - This custodial fund is used to account for activities of student groups, other organizational activities and the District service as business agent with Communities in Schools of North Texas, Inc. Financial resources for the Agency fund are recorded as assets and liabilities; therefore, this fund does not include revenues and expenditures and has no fund equity. If the student groups declare any unused resources surplus, they are transferred to the General Fund.

Implementation of New Standards

The following GASB pronouncements have been issued but not yet implemented by the District:

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. It was issued in June 2020, but the requirements in (1) paragraph 4 of this Statement as it applies to defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans and (2) paragraph 5 of this Statement are effective immediately. The requirements in paragraphs 6–9 of this Statement are effective for fiscal years beginning after June 15, 2021. Implementation of this statement is planned for fiscal year 2022.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements. This statement was issued in May 2020 and provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. This statement is effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Implementation of this Statement is planned for fiscal year 2023.

GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. This Statement was issued in March 2020. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.

Note 1 - Summary of Significant Accounting Policies (continued)

Implementation of New Standards (continued)

The requirements of this Statement are effective immediately.

- Statement No. 83, Certain Asset Retirement Obligations
- Statement No. 84, Fiduciary Activities
- Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period
- Statement No. 90, Majority Equity Interests
- Statement No. 91, Conduit Debt Obligations
- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates
- Implementation Guide No. 2017-3, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (and Certain Issues Related to OPEB Plan Reporting)
- Implementation Guide No. 2018-1, Implementation Guidance Update—2018
- Implementation Guide No. 2019-1, Implementation Guidance Update—2019
- Implementation Guide No. 2019-2, Fiduciary Activities.

The effective dates of the following pronouncements are postponed by 18 months:

- Statement No. 87, Leases
- Implementation Guide No. 2019-3, Leases.

The District plans on implementing GASB No. 84 Fiduciary Activities in fiscal year 2021 and GASB No. 87 Leases in fiscal year 2022.

Budgetary Data

Each school district in Texas is required by law to annually prepare a budget of anticipated revenues and expenditures for Governmental Funds for the fiscal year beginning September 1. The District adopts annual budgets for the General Fund, Food Service, and the Debt Service Fund.

The annual budget is prepared on the modified accrual basis of accounting. The official school budget was prepared for adoption for all governmental fund types by August 20, 2019, as required. The Board of Trustees formally adopted the budget at a duly advertised public meeting prior to the expenditure of funds. Final priorities and funding of projects are determined by the Board, which subsequently establishes a tax rate sufficient to support the approved budget.

Management has the authority to transfer any unencumbered appropriation from one appropriation to another within a single function. In addition, the administration performs budget reviews by which budget requirements are reevaluated and revisions are recommended to the Board. The Board is required to approve amendments to the budget that change any budgeted fund (the legal level of compliance), revenue object accounts, or other financing sources/uses as defined by the Agency for each individual fund type. Unexpended appropriations lapse at year-end. State law prohibits deficit fund balances. (See Note 2 for additional disclosure.)

Note 1 - Summary of Significant Accounting Policies (continued)

Cash in Bank Depository and Investments

The District's cash and investments are classified as cash and temporary investments. The cash and temporary investments include cash on hand and deposits with financial institutions. Investments consist of balances in privately managed public funds investment pools and investments in United States (U.S.) securities and U.S. Agency securities. The District reports all investments at fair market value, except for investment pools. The District's investment pools are valued and reported at amortized cost, which approximates fair market value. The District's cash and temporary investments are short-term, highly liquid investments that are readily convertible to cash.

The District's investments are carried at fair market value based on quoted market prices at year-end, in accordance with U.S. generally accepted accounting principles. The District categorizes fair market value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair market value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair market value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's local government investment pools are recorded at amortized costs as permitted by GASB Statement No. 79 *Certain Investment Pools and Pool Participants*.

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At August 31, 2020, the carrying amount of the District's cash deposits was \$20,878,629 and the bank balance was \$15,243,313. At year end, the District included cash equivalents in its cash accounts and reported a balance of \$20,878,629. The District's deposits at August 31, 2020, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

The cash and cash equivalents amounts were composed of the following:

	Cash	Investments	Total
General Fund	\$ -	\$ 192,056,169	\$ 192,056,169
Debt Service Fund	98,705	47,463,949	47,562,654

Total	543,450,732		81.17%	38
Total Investments	\$ 669,548,546		100.00%	48

* Per GASB 79, valued at amortized cost.

Investments' fair market value input levels are as follows at August 31, 2020:

Investments	Level 1	Level 2	Level 3	Total
Certificates of Deposit	\$ -	\$ 16,118,794	\$ -	\$ 16,118,794
Money Market	-	109,979,020	-	109,979,020
State and Local Agencies	-	-	-	-
US Government and Agency Securities	-	-	-	-
Total	\$ -	\$ 126,097,814	\$ -	\$ 126,097,814

Credit Risk- Texas state law and the Lewisville ISD's Board adopted Investment Policy placing high credit quality as a priority in its investment process. Credit minimums are set for appropriate invest types and a procedure is included in the policy for monitoring, disclosing and acting on credit downgrades. All time and demand deposits are required to be FDIC insured or collateralized to 102% (or 110% if mortgage-backed securities). They must be in eligible depositories doing business in Texas and be under the terms of a written collateral agreement. The maximum maturity on depository CD as stated in the Policy is one year. The bank is contractually liable for monitoring and maintaining the collateral margins.

Brokered CD securities must be FDIC insured and delivered versus payment to the District's depository. Maximum maturity of one year and FDIC insurance must be verified before purchase.

State law and the Lewisville ISD adopted Investment Policy limits repurchase agreements to Texas banks and primary dealers. State law and the Policy require a defined termination date, an industry standard, written master repurchase agreement, independent safekeeping of collateral, and a 102% margin on collateral. Fully collateralized flex repurchase agreements are restricted by the Policy to the use of bond funds and are restricted to being matched to bond proceeds expenditures plans. The term of any reverse security repurchase agreement may not exceed ninety (90) days after the date of delivery.

Note 1 - Summary of Significant Accounting Policies (continued)

Cash in Bank Depository and Investments (continued)

Obligations of the State of Texas or its agencies and instrumentalities or obligations of other states, agencies, counties, cities and other political subdivisions rated as to investments quality by a nationally recognized rating firm (NRSRO) not less than AA or its equivalent are authorized. Debt obligations have a maximum maturity of three years.

AAA-rated, local government investment pools striving to maintain a \$1 net asset value as defined by state law (2256.016) and approved by the District's adopted policy are authorized. By State law all local government pools are rated AAA or equivalent by at least one NRSRO.

The District's Investment Policy requires SEC registered money market funds to be AAA-rated and to strive to maintain at \$1 NAV.

Concentration of Credit Risk - Lewisville ISD's adopted Investment Policy requires diversification which is monitored on at least a monthly basis. The Policy requires the following diversification:

	<u>Maximum % of Portfolio</u>
U.S. Treasury Obligations	100%
U.S. Agency Obligations	80%
Commercial Paper	25%
Constant Dollar Pools	100%
Repurchase Agreements	100%
Certificates of Deposit	40%
Brokered Certificate of Deposit Securities	20%
Municipal Obligations	35%

Interest Rate Risk - In order to limit interest and market rate risk from changes in interest rates, Lewisville ISD's adopted Investment Policy sets a maximum maturity of three (3) years and a maximum weighted average maturity (WAM) of 365 days on the total portfolio. Escrow sinking funds will be invested with a maximum maturity matching the termination date of the escrow.

Custodial Credit Risk- To control custody risk State law and the District's adopted Investment Policy requires collateral for all time and demand deposits and repurchase agreements with securities transferred only on a delivery versus payment basis and held by an independent party approved by the District and held in the District's name. The custodian is required to provide original safekeeping receipts and monthly reporting of positions and position descriptions including fair market value. Repurchase agreements and deposits must be collateralized to 102% and time and demand deposits collateralized to 102% (with 110% on mortgaged-backed securities). Transactions are required to be executed under a written collateral and/or repurchase agreement. The counterparty of each type transaction is held contractually liable for monitoring and maintaining the required collateral margins on a daily basis.

Note 1 - Summary of Significant Accounting Policies (continued)

Cash in Bank Depository and Investments (continued)

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies. Investments are recorded at fair market value. Fair market value is determined by the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

As of August 31, 2020, the District's investments consisted of balances held by Certificates of Deposit, Texas Local Government Investment Pool (TexPool), U.S. Governmental Agencies, Money Market funds and State and Local agencies.

TexPool is a public funds investment pool created by the Texas Treasury Safekeeping Trust Company (the Trust Company) to provide a safe environment for the placement of local government funds. The portfolio consists of U.S. Treasury and government agency securities, repurchase agreements, certain mutual funds, collateralized repurchase and reverse repurchase agreements, no-load money market mutual funds regulated by the Securities and Exchange Commission and rated AAA or equivalent by at least one nationally recognized statistical rating organization, securities lending programs, and certificates of deposit. TexPool is overseen by the State Comptroller of Public Accounts and administered by Federated Investors, Inc. The State Street Bank is the custodial bank. TexPool follows chapter 2256 of the Texas Public Funds Investment Act. TexPool uses amortized cost rather than fair market value to report net position to compute share prices. The fair market value of the position in TexPool is the same as the value of TexPool shares. Accordingly, the District's investments in TexPool are stated at amortized cost, which approximates fair market value.

In accordance with GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, the Local Government Investment Pools do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. These pools do not impose any liquidity fees or redemption gates.

The District is invested in several Money Market accounts at Wells Fargo, East West Bank, First Financial Bank, Nexbank and Bank of Texas. Money Markets are a type of savings account that usually pays a higher interest rate. These funds are considered liquid and the District's Money Market funds are reported at fair market value using Level 2 inputs.

The District invested in U.S. Government Agencies and State and Local agencies in which the carrying value reflects the fair market value of the investments and are reported as Level 2 inputs.

Note 1 - Summary of Significant Accounting Policies (continued)

Cash in Bank Depository and Investments (continued)

Interfund Transactions

Interfund receivables and payables arise from interfund transactions in the normal course of operations and are recorded in all affected funds in the period in which transactions are executed. Interfund transfers arise from the need to move cash from bank accounts. See Note 11 for additional discussion of interfund transactions.

Inventories

Technology and food commodities are carried in an inventory account at cost, using the first-in, first-out method of accounting. Maintenance is carried using average cost method. Inventories are recorded as expenses when consumed on the government-wide financial statements and as expenditures when purchased on the fund financial statements. Although food commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Resources and recorded as inventory. In the governmental funds, a non-spendable fund balance indicates that they are unavailable as current expendable financial resources.

Prepaid Items

Certain payments to vendors reflect cost applicable to future accounting periods and are recorded using the consumption method in both government-wide and fund financial statements. The prepaid items have been identified as a non-spendable fund balance since it is not available for other subsequent expenditures.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of one year or more. However, all land and land improvements are capitalized regardless of the amount. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of assets or materially extend the life of assets are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are completed.

All capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful life of the related capital asset. Depreciation is computed using the straight-line method based on the estimated life as follows:

<u>Assets</u>	<u>Estimated Life</u>
Land improvements	10-20 years
Buildings and improvements	10-50 years
Vehicles	6 years
Furniture and Equipment	5-20 years

Note 1 - Summary of Significant Accounting Policies (continued)

Cash in Bank Depository and Investments (continued)

Long-Term Debt

In the government-wide financial statements, proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums, discounts, and losses on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the period it occurs.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period as other financing sources and uses. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Compensated Absences

Employees are allowed to accrue five days of state personal leave each year without limit. The District pays a portion of accrued personal leave to retiring personnel meeting state eligibility requirements for retirement. The payment is limited to one-half of the current salary rate for the accumulated personal days. The District reflects accumulated personal leave in the government-wide financial statements. Personal leave is paid out of the fund to which the employee's salary relates, the majority of which has historically been the General Fund.

Deferred Outflows/Inflows of Resources

Deferred outflows and inflows of resources are reported in the financial position as described below:

A deferred outflow of resources is a consumption of a government's net position (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

- Deferred outflows or resources for refunding - Reported in the government-wide statement of net position, this deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred outflows of resources for pension – Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

Note 1 - Summary of Significant Accounting Policies (continued)

Deferred Outflows/Inflows of Resources (continued)

- Deferred outflows of resources for other post-employment benefits (OPEB) other than pension – Reported in the government-wide financial statement of net position, this deferred outflow results from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of 1) differences between projected and actual earnings on OPEB plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the District's proportional share of OPEB liabilities. The deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on OPEB investments will be amortized over a closed five-year period. The remaining postemployment related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the OPEB plan.

A deferred inflow of resources is an acquisition of a government's net positions (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

- Deferred inflows of resources for unavailable revenues - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Deferred inflows of resources for pension – reported in the government-wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences and 3) changes in the District's proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- Deferred inflows of resources for OPEB – Reported in the government-wide financial statement of net position, this deferred inflow results primarily from 1) changes in actuarial assumptions; and 2) differences between expected and actual actuarial experiences. These OPEB related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the OPEB plan.

Fund Balance and Net Position

Governmental Accounting Standards Board Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions," provides more defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints.

Note 1 - Summary of Significant Accounting Policies (continued)

Governmental Fund Financial Statements

In the fund financial statements, governmental funds report fund balances as non-spendable, restricted, committed, assigned or unassigned.

Non-Spendable fund balances are amounts that are not in spendable form or required to be maintained intact. Inventory and prepaid items have been properly classified as such.

Restricted is that portion of fund equity which has limitations imposed by creditors, grantors, contributors, or laws and regulations of other governments.

Committed is that portion of fund equity which has limitations imposed by the Board of Trustees. To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint. The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. The Board committed 100% of the ending fund balance in the Campus Activity Funds for use by the respective campus.

Assigned is that portion of fund equity that is spendable or available for appropriation but has been tentatively earmarked for some specific purpose by a designee that has been granted the authority by the Board. The District did not have any assigned fund balances as of August 31, 2020. In addition, the Board assigned an amount equivalent to three months operating expenditures in the General Fund and an amount equivalent to ten percent of the annual debt service on bonds approved by the voters as Minimum Fund Balances. The Minimum Fund Balance Policy was approved to set aside resources to maintain liquidity and to cover unanticipated deficits of revenue reductions that may be caused by adverse economic conditions.

Unassigned is that portion of fund equity that is available for any legal purpose. The general fund is the only fund that will have an unassigned amount. If other governmental funds incur expenditures for specified purposes that exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance. The order of spending and availability of the fund balances shall be to reduce funds in the following order: restricted, committed, assigned, and unassigned.

When the District incurs an expense for which it may use either restricted or unrestricted net position, it uses restricted net position first unless unrestricted net position will have to be returned because they were not used. Net position on the Statement of Net Position includes the following:

Net Investment in Capital Assets - The component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction, or improvement of these capital assets.

Restricted net position - The component of net position calculated by reducing the carrying value of restricted assets by the amount of any related debt outstanding.

Unrestricted - The difference between the assets and liabilities that is not reported Investment in Capital Assets and Restricted Net Position.

Note 1 - Summary of Significant Accounting Policies (continued)

Self-insured Workers' Compensation

On September 1, 1990, the District established a self-funding Workers' Compensation program. The District maintains a self-insured retention of \$500,000 per occurrence. The District currently purchases specific excess coverage to statutory limits from an insurance company that does not have a maximum amount. The District also maintains a self-insured retention of \$2,242,718 for aggregate claims. An aggregate policy from Edwards Risk Management provides \$1,000,000 in excess of the retention amount. Total claims exceeding the maximum aggregate policy amount become the responsibility of the District. Claims administration was provided by Edwards Claims Administration of Marble Falls, Texas.

At August 31, 2020, the accrued liabilities for Workers' Compensation self-insurance of \$1,212,968, which includes incurred but not reported (IBNR) claims. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing the liability does not result necessarily in an exact amount. The liability booked was the undiscounted estimate of the actuary.

Changes in the workers' compensation claims liability paid during the year are as follows:

	Year Ended August 31, 2020	Year Ended August 31, 2019
Unpaid claims, beginning of year	\$ 1,348,724	\$ 1,583,116
Incurred claims (including IBNR's)	926,710	1,319,117
Claim payments and changes in estimate	(1,062,466)	(1,553,509)
Unpaid claims, end of fiscal year	<u>\$ 1,212,968</u>	<u>\$ 1,348,724</u>

Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal 2020, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the current fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Encumbrances

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Since under Texas law, appropriations lapse at fiscal year-end, outstanding encumbrances are appropriately provided for in the subsequent fiscal years' budget to provide for the liquidation of the prior commitments. As of August 31, 2020, the District had encumbrances in the General Fund and Food Service program of \$2,675,032 and \$1,127, respectively that rolled over into the new fiscal year.

Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the Financial Accountability System Resource Guide. TEA requires school districts to display these codes in the financial statements submitted to them in order to ensure accuracy in building a statewide database for policy development and funding plans.

Note 1 - Summary of Significant Accounting Policies (continued)

Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair market value.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Note 2 - Budgetary Legal Compliance

During the fiscal year, the operating budget must be amended by the Board for changes that increase or decrease the original budget. All supplemental appropriations must be within limits of available revenues and fund equity. The following table summarizes changes to the originally adopted budgeted funds:

Fund	Appropriations as of September 01, 2019 (Original Budget)	Supplemental Appropriations and Revisions	Appropriations as of August 31, 2020 (Amended Budget)
General Fund	\$ 504,233,482	\$ 28,656,512	\$ 532,889,994
Food Service Fund	25,324,337	54,643	25,378,980
Debt Service Fund	148,061,520	58,044,887	206,106,407
Total Budgeted Funds	<u>\$ 677,619,339</u>	<u>\$ 86,756,042</u>	<u>\$ 764,375,381</u>

The increases in appropriations for the General Fund and Food Service Fund were mainly attributed to purchase orders. The Debt Service Fund increase was related to cash defeasance. The District exceeded its budgeted expenditures in Function 81 by \$73,741. A reconciliation of fund balances for budgeted and unbudgeted special revenue funds is as follows:

Budget - Special Revenue Fund - Food Service	\$ 5,536,758
Unbudgeted Funds	<u>7,557,048</u>
All Special Revenue Funds	<u>\$ 13,093,806</u>

Note 3 - Property Taxes

The District's ad valorem property tax is levied each October 1 on the taxable value as of the prior January for all real and business personal property located in the District. The taxable value of the property tax roll upon which the levy was based for the 2019-20 fiscal year was \$42,117,267,514.

The tax rates assessed for the year ended August 31, 2020 to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$0.97 and \$0.3675 per \$100 valuation, respectively, for a total of \$1.3375 per \$100 valuation.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent by February 1 of the following year. Current tax collections for the year ended August 31, 2020 were 99.54% of the year-end adjusted tax levy.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2020, property taxes receivable, net of estimated uncollectible taxes, totaled \$4,392,247 and \$1,632,770 for the General and Debt Service Funds, respectively.

Note 4 - Due To/From Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. All federal grants shown below are passed through the TEA and are reported on the financial statements as Due from Other Governments. The amounts due from Denton County are for the Juvenile Justice Alternative Education Program (JJAEP) and property taxes. Amounts due from federal and state governments as of August 31, 2020 are summarized below. Amounts are expected to be collected within two months after the District's fiscal year end.

Fund	Denton County	State Entitlements	Federal Grants	Total
General	\$ 144,386	\$ 2,743,838	\$ 19,531	\$ 2,907,755
Debt Service	37,664	-	-	37,664
Special Revenue	-	189,790	4,489,583	4,679,373
Total	\$ 182,050	\$ 2,933,628	\$ 4,509,114	\$ 7,624,792

Due to state represents payment due to the state for sales tax and overpayment of the foundation allotment. Amounts due to other represents taxes collected from the purchase of land and due to the County.

Amounts due to local and state governments as of August 31, 2020 are summarized below.

Fund	State	Other	Total
General	\$ 155,471	\$ -	\$ 155,471
Special Revenue	-	174,435	174,435
Total	\$ 155,471	\$ 174,435	\$ 329,906

Note 5 - Capital Assets

Capital asset activity for the year ended August 31, 2020 was as follows:

	Balance September 1, 2019	Additions	Deletions	Transfers	Balance August 31, 2020
Capital assets, not being depreciated:					
Land	\$ 111,236,031	\$ -	\$ 7,876,354	\$ -	\$ 103,359,677
Construction in progress	86,989,254	83,394,270	-	(82,703,768)	87,679,756
Total Capital Assets, not being depreciated	<u>198,225,285</u>	<u>83,394,270</u>	<u>7,876,354</u>	<u>(82,703,768)</u>	<u>191,039,433</u>
Capital assets, being depreciated:					
Buildings and improvements	1,398,856,098	125,460,443	1,308,068	82,703,768	1,605,712,241
Vehicles	4,019,221	28,719,878	114,398	-	32,624,701
Furniture and equipment	25,340,628	2,477,055	989,633	-	26,828,050
Total Capital Assets, being depreciated	<u>1,428,215,947</u>	<u>156,657,376</u>	<u>2,412,099</u>	<u>82,703,768</u>	<u>1,665,164,992</u>
Less accumulated depreciation for:					
Buildings and improvements	469,643,600	42,038,109	1,258,425	-	510,423,284
Vehicles	2,716,233	1,170,025	114,398	-	3,771,860
Furniture and Equipment	15,427,509	1,991,523	926,499	-	16,492,533
Total Accumulated Depreciation	<u>487,787,342</u>	<u>45,199,657</u>	<u>2,299,322</u>	<u>-</u>	<u>530,687,677</u>
Governmental activities capital assets, net	<u>940,428,605</u>	<u>111,457,719</u>	<u>112,777</u>	<u>82,703,768</u>	<u>1,134,477,315</u>
Governmental Capital Assets	<u>\$ 1,138,653,890</u>	<u>\$ 194,851,989</u>	<u>\$ 7,989,131</u>	<u>\$ -</u>	<u>\$ 1,325,516,748</u>

Depreciation expense was charged to functions of the District as follows:

Governmental Activities:	
Instruction and Instructional Related Services	\$ 26,107,548
Instructional and School Leadership	1,311,715
Support Services Student (Pupil)	9,489,851
Administrative Support Services	199,062
Support Services - Non-student Based	7,248,530
Ancillary Students	842,951
Total Depreciation Expense - Governmental Activities	<u>\$ 45,199,657</u>

Note 5 - Capital Assets (continued)

Construction in Progress

A summary of capital projects having construction in progress as of August 31, 2020, follows:

	Authorized Contract	Construction in Progress	Remaining Commitment
Hebron HS Communication and Network Access	\$ 97,242	\$ 500	\$ 96,742
Flower Mound HS Communication and Network Access	78,999	500	78,499
Aquatic Center-East Communication and Network Access	443,236	500	442,736
LISDOLA - Communication and Network Access	317,042	500	316,542

Note 6 - Defined Benefit Pension Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained online at <https://trs.texas.gov/TRS%20Documents/cafr2019.pdf>, selecting About TRS then Publications then *Financial Reports* or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs, can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code Section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers, and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018, received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

Note 6 - Defined Benefit Pension Plan (continued)

Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025.

	Contribution Rates	
	Plan Fiscal Year	
	2020	2019
Member	7.70%	7.70%
Non-Employer Contributing Entity (NECE) - State	7.50%	6.80%
Employers (District)	7.50%	6.80%

	Measurement Year (2019)		Fiscal Year (2020)
	Contributions Required and Made	Pension Expense	TRS Contributions
Member (Employee) contributions	\$ 26,440,687	\$ -	\$ 26,771,496
Non-employer (State) on-behalf contributions	15,997,288	37,323,414	21,331,099
Employer (District) contributions	10,737,227	32,633,729	9,266,662

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA). Contributions and pension expense for all contributors were as follows:

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

When the employing district is a public or charter school, the employer shall contribute 1.5% of covered payroll to the pension fund beginning in fiscal year 2020. This contribution rate called the Public Education Employer Contribution will replace the Non (OASDI) surcharge that was in effect in fiscal year 2019.

Note 6 - Defined Benefit Pension Plan (continued)

Contributions (continued)

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees. This surcharge was in effect through fiscal year 2019 and was replaced with the Public Education Employer Contribution explained above.

Actuarial Assumptions

The total pension liability in the August 31, 2018 actuarial valuation rolled forward to August 31, 2019, was determined using the following actuarial assumptions:

Valuation Date	August 31, 2018, rolled forward to August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term expected Investment Rate of Return	7.25%
Municipal Bond Rate as of August 2019	2.63%*
Inflation	2.30%
Salary Increases	3.05% to 9.05% including Inflation
Benefit Changes During the Year	None
Ad Hoc Post-Employment Benefit Changes	None

* Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2018. For a full description of these assumptions please see the actuarial valuation report dated November 9, 2018.

Discount Rate

A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Note 6 - Defined Benefit Pension Plan (continued)

Discount Rate (continued)

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2019, are summarized below:

<u>Asset Class</u>	<u>2019 Target Allocation¹</u>	<u>New Target Allocation²</u>	<u>Long Term Expected Geometric Real Rate of Return³</u>
Global Equity			
U.S.	18.00%	18.00%	6.40%
Non-U.S. Developed	13.00%	13.00%	6.30%
Emerging Markets	9.00%	9.00%	7.30%
Directional Hedge Funds	4.00%	0.00%	0.00%
Private Equity	13.00%	14.00%	8.40%
Stable Value			
U.S. Treasuries ⁴	11.00%	16.00%	3.10%
Stable Value Hedge Funds	4.00%	5.00%	4.50%
Absolute Returns (Including Credit Sensitive Investments)	0.00%	0.00%	0.00%
Real Return			
Global Inflation Linked Bonds ⁴	3.00%	0.00%	0.00%
Real Estate	14.00%	15.00%	8.50%
Energy, Natural Resources, and Infrastructure	5.00%	6.00%	7.30%
Commodities	0.00%	0.00%	0.00%
Risk Parity			
Risk Parity	5.00%	8.00%	5.80/6.50% ⁵
Leverage			
Cash	1.00%	2.0%	2.50%
Asset Allocation Leverage	0.00%	-6.0%	2.70%
Expected Return	<u>100.00%</u>	<u>100.00%</u>	<u>7.23%</u>

1 Target allocations are based on the Strategic Asset Allocation as of FY2019.

2 New allocations are based on the Strategic Asset Allocation to be implemented in FY2020.

3 10-year annualized geometric nominal returns include the real rate of return and inflation of 2.1%.

4 New Target Allocation groups Government Bonds within the stable value allocation. This includes global sovereign nominal and inflation-linked bonds.

5 5.8% (6.5%) return expectation corresponds to Risk Parity with a 10% (12%) volatility.

Note 6 - Defined Benefit Pension Plan (continued)

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the Net Pension Liability.

	<u>1% Decrease in Discount Rate (6.25%)</u>	<u>Discount Rate (7.25%)</u>	<u>1% Increase in Discount Rate (8.25%)</u>
District's proportionate share of the net pension liability:	\$ 245,124,343	\$ 159,467,259	\$ 90,068,488

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At August 31, 2020, the District reported a liability of \$159,467,259 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 159,467,259
State's proportionate share that is associated with the District	<u>237,598,734</u>
Total	<u><u>\$ 397,065,993</u></u>

The net pension liability was measured as of August 31, 2018, and rolled forward to August 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the District's proportion of the collective net pension liability was 0.3068% which was a decrease of 0.0056% from its proportion measured as of August 31, 2018, of 0.3124%.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018, was a blended rate of 6.907 percent and that has changed to the long-term rate of return of 7.25 percent as of August 31, 2019.
- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected in the actuarial assumptions.
- The Texas legislature approved funding for a 13th check. All eligible members retired as of December 31, 2018, will receive an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever is less.

For the year ended August 31, 2020, the District recognized pension expense of \$32,633,729 and an additional revenue and expense of \$37,323,414 representing pension expense incurred by the State on behalf of the District.

Note 6 - Defined Benefit Pension Plan (continued)

Changes Since the Prior Actuarial Valuation (continued)

At August 31, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 669,905	\$ (5,536,956)
Changes in actuarial assumptions	49,474,575	(20,445,235)
Difference between projected and actual investment earnings	1,601,235	-
Changes in proportion and difference between employer contributions and proportionate share of contributions	9,391,678	(1,795,240)
District contributions subsequent to the measurement date	9,266,662	-
Total	<u>\$ 70,404,055</u>	<u>\$ (27,777,431)</u>

Deferred outflows of resources resulting from District contributions subsequent to the measurement date in the amount of \$9,266,662 will be recognized as a reduction of the net pension liability in the year ended August 31, 2021. The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended August 31:	Pension Expense Amount
2021	\$ 9,124,961
2022	7,213,624
2023	8,401,795
2024	7,887,063
2025	2,322,432
Thereafter	(1,589,913)
	<u>\$ 33,359,962</u>

Note 7 - Defined Other Post-Employment Benefit Plans

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System’s fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained online at <https://trs.texas.gov/TRS%20Documents/cafr2019.pdf>, selecting About TRS then Publications then *Financial Reports* or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic postemployment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table:

TRS-Care Plan Premium Rates				
	<u>Medicare</u>		<u>Non-Medicare</u>	
Retiree or Surviving Spouse	\$	135	\$	200
Retiree and Spouse		529		689
Retiree or Surviving Spouse and Children		468		408
Retiree and Family		1,020		999

Note 7 - Defined Other Post-Employment Benefit Plan (continued)

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state’s contribution rate which is 1.25% of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is 0.75% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates	
	2020	2019
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding remitted by Employers	1.25%	1.25%

	Measurement Year		Fiscal Year
	Contributions Required and Made	OPEB Expense	TRS-Care Contributions
Member (Employee)	\$ 2,232,007	\$ -	\$ 2,259,932
Non-employer contributing agency (State)	3,664,581	6,436,057	6,724,737
District	2,758,028	5,643,913	2,790,712

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether or not they participate in the TRS Care OPEB program*). When hiring a TRS retiree, employers are required to pay TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$73.6 million in fiscal year 2019.

In addition, \$230,756,971 was transferred to TRS to pay for TRS-Care during the 86th Legislative Session, House Bill 1. GASB Statement No. 85 requires that an on-behalf payment is recorded for the districts proportionate share. The proportionate share was determined using the GASB Statement No. 75 TRS-Care proportionate share allocation. For the year ended August 31, 2020, the District recorded an expenditure for their proportionate share of the funds along with the corresponding revenue of \$896,736.

Note 7 - Defined Other Post-Employment Benefit Plan (continued)

Actuarial Assumptions

The total OPEB liability in August 31, 2018, was rolled forward to August 31, 2019. The actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2018, rolled forward to August 31, 2019
Actuarial Cost method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.63% as of August 31, 2019
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05% including inflation
Healthcare Trend Rates	Initial medical trend rates were 10.25% for Medicare retirees and 7.50% for non-Medicare retirees. Initial prescription drug trend rate of 10.25% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.50% over a period of 13 years.
Election Rates	Normal Retirement: 65% participation prior to age 65 and 50% participation after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Ad hoc post-employment benefit changes	None

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions used for members of TRS are identical to the assumptions employed in the August 31, 2019 TRS annual pension actuarial valuation: (a) Rates of Mortality, (b) Rates of Retirement, (c) Rates of Termination, (d) Rates of Disability, (e) General Inflation, (f) Wage Inflation, and (g) Salary Increases.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Note 7 - Defined Other Post-Employment Benefit Plan (continued)

Discount Rate

A single discount rate of 2.63% was used to measure the total OPEB liability. There was a change of 1.06% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to *not be able to* make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.63%) in measuring the Net OPEB Liability.

Sensitivity of the Net OPEB Liability to the Single Discount Rate Assumptions		
1% Decrease in Discount Rate (1.63%)	Current Discount Rate (2.63%)	1% Increase in Discount Rate (3.63%)
\$ 221,877,338	\$ 183,776,610	\$ 153,970,377

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2020, the District reported a liability of \$183,776,610 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 183,776,610
State's proportionate share that is associated with District	244,198,009
Total	<u>\$ 427,974,619</u>

The Net OPEB Liability was measured as of August 31, 2018, and rolled forward to August 31, 2019, and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District’s proportion of the Net OPEB Liability was based on the District’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the District’s proportion of the collective Net OPEB Liability was 0.3886% which was a decrease of 0.0072% from its proportion measured as of August 31, 2018.

Note 7 - Defined Other Post-Employment Benefit Plan (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (continued)

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the assumed healthcare cost trend rate:

<u>Sensitivity of the Net OPEB Liability to the Healthcare Cost Trend Rate Assumptions</u>		
Current Healthcare Cost		
<u>1% Decrease</u>	<u>Trend Rate</u>	<u>1% Increase</u>
\$ 149,918,512	\$ 183,776,610	\$ 229,130,915

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

- The discount rate changed from 3.69 percent as of August 31, 2018, to 2.63 percent as of August 31, 2019. This change increased the TOL.
- The health care trend rates were reset to better reflect the plan’s anticipated experience. This change increased the TOL.
- The participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. Twenty-five percent of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20 percent to 10 percent. These changes decreased the TOL.
- Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2020, the District recognized OPEB expense of \$5,643,913 and an additional on-behalf revenue and expense of \$6,436,057 representing support provided by the State.

At August 31, 2020, the District reported its proportionate share of the TRS’s deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 9,015,805	\$ (30,073,093)
Changes in actuarial assumptions	10,207,358	(49,431,398)
Difference between projected and actual investment earnings	19,826	-
Changes in proportion and difference between the employer contributions and the proportionate share of contributions	8,113,977	(3,987,346)
Contributions paid to TRS subsequent to the measurement date	2,790,713	-
Total	<u><u>\$ 30,147,679</u></u>	<u><u>\$ (83,491,837)</u></u>

Note 7 - Defined Other Post-Employment Benefit Plan (continued)

Changes Since the Prior Actuarial Valuation (continued)

The \$2,790,713 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending August 31, 2021. The net amounts of the District's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended <u>August 31:</u>	<u>OPEB Expense Amount</u>
2021	\$ (9,483,534)
2022	(9,483,534)
2023	(9,489,952)
2024	(9,493,622)
2025	(9,492,617)
2026	(8,691,612)
	<u>\$ (56,134,871)</u>

The Medicare Prescription Drug Improvement and Modernization Act of 2003 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. Under Medicare Part D, TRS-Care receives retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the years ended August 31, 2020, 2019 and 2018, the subsidy payments received by TRS-Care on behalf of the District are as follows:

<u>Fiscal Year</u>	<u>Medicare Part D</u>
2020	\$ 1,658,147
2019	1,314,781
2018	1,042,862

These payments are recorded as equal revenues and expenditures in the governmental funds financial statement of the District.

Note 8 - Deferred Compensation Plan

Employees of the District may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plan with Respect to Service for State and Local Governments). An unrelated financial institution, JEM Resource Partners, Inc. administers the Plan.

The deferred compensation plan is available to all employees of the District who are not covered under the State Retirement Plan. Under the plan, employees defer 7.5% of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, or death.

As part of its fiduciary role, the District has an obligation of due care in selecting the third-party administrator. In the opinion of the District's legal counsel, the District has acted in a prudent manner and is not liable for losses that may arise from the administration of the plan.

As a result of legislative changes, all amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to these amounts, property, or rights are held in trust for the exclusive benefits of participants and their beneficiaries and are not included in the financial statements of the District.

Note 9 - Long-Term Debt

Long-term debt includes par bonds and capital appreciation (deep discount) serial bonds. Bond premiums and discounts are amortized using the effective interest method.

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas (SID), which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

The 1996, 2003, 2014B and 2015 bond series included outstanding capital appreciation bonds in the principal amount of \$10,326,037. The bonds mature variously through 2022. Interest accrues on these bonds each February 15 and August 15, even though the interest is not paid until maturity.

Debt service requirements to maturity are summarized as follows:

Year Ended August 31:	Principal	Interest *	Requirements
2021	\$ 88,580,233	\$ 67,027,627	\$ 155,607,860
2022	73,107,363	82,502,922	155,610,285
2023	103,785,000	51,827,431	155,612,431
2024	108,670,000	46,940,421	155,610,421
2025	113,880,000	41,734,707	155,614,707
2026-2030	568,640,000	130,991,722	699,631,722
2031-2035	186,815,000	53,013,808	239,828,808
2036-2040	161,550,000	14,662,700	176,212,700
	\$ 1,405,027,596	\$ 488,701,338	\$ 1,893,728,934

* Interest on Build America Bonds (BABs) amounts are included.

Note 9 - Long-Term Debt (continued)

Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. There are a number of limitations and restrictions contained in the various general obligation bonds indentures. The District is in compliance with all significant limitations and restrictions at August 31, 2020.

The following is a summary of the changes in the District's outstanding debt as of August 31, 2020:

Description	Issued Amount	Interest Rate Payable	Amounts Outstanding 9/1/2019	Issued Current Year	Interest Accretion	Retired/ Refunded	Amounts Outstanding 8/31/2020	Due Within One Year
1996 Refunding Bond	\$ 49,353,358	4.40 - 6.38%	\$ 3,343,673	\$ -	\$ -	\$ 1,728,440	\$ 1,615,233	\$ 1,615,233
2003 Unlimited Tax/Refunding	758,544	2.50 - 5.00%	351,626	-	-	-	351,626	-
2010 Qualified Sch Const Bonds	29,900,000	6.88%	29,900,000	-	-	-	29,900,000	-
2010B Build America Bonds	25,055,000	5.974 - 6.024%	25,055,000	-	-	-	25,055,000	-
2011 Refunding Bond	27,770,000	2.50 - 2.00%	5,090,000	-	-	1,710,000	3,380,000	1,695,000
2012A Unlimited Tax/Refunding	100,105,000	3.00 - 5.00%	36,410,000	-	-	36,410,000	-	-
2012B Unlimited Refunding	22,465,000	2.00 - 5.00%	11,265,000	-	-	11,265,000	-	-

2018 Unlimited Tax Refunding	8,905,000	5.00%	6,190,000	-	-	-	6,190,000	-
2018 Unlimited Tax	117,210,000	3.00 - 5.00%	112,550,000	-	-	5,040,000	107,510,000	5,295,000
2019 Unlimited Tax	109,765,000	3.00 - 5.00%	109,765,000	-	-	3,280,000	106,485,000	3,635,000
2020 Unlimited Building/Refunding	262,515,000	2.125 - 5.0%	-	262,515,000	-	-	262,515,000	2,885,000
Bonded Indebtedness			1,269,936,036	262,515,000	-	127,423,440	1,405,027,596	88,580,233
Accreted Interest and CAB premium			37,145,152	-	2,059,468	7,186,560	32,018,060	6,762,198
Bond Premium			101,323,429	54,925,800	-	22,262,091	133,987,138	18,148,665
Accrued Compensated Absences			2,831,994	765,152	-	461,533	3,135,613	445,847
Total Obligations			<u>\$ 1,411,236,611</u>	<u>\$ 318,205,952</u>	<u>\$ 2,059,468</u>	<u>\$ 157,333,624</u>	<u>\$ 1,574,168,407</u>	<u>\$ 113,936,943</u>

During fiscal year 2020, the District issued \$262,515,000 in Unlimited Tax School Building and Refunding Bonds, Series 2020 with interest rates of 2.125% to 5.00% to construct, renovate, acquire and equip school buildings in the District and to refund certain bonds and purchase necessary sites for school buildings and to pay costs of issuance of the bonds. The bonds were issued a premium of \$54,925,800. The refunding bonds were used to refund Unlimited Tax School Building and Refunding Bonds, Series 2012A. The difference between carrying value of the refunded debt and amount placed in escrow resulted in a gain of \$1.4 million. The present value savings of the bonds were \$6,929,033.

The District in 2010 issued bonds that are considered Build America Bonds (BABS), which provide for a direct reimbursement of up to 35 percent of the interest paid on the bonds. The District received \$495,068 in subsidy payments from the federal government during the fiscal year ended August 31, 2020, for the BABS.

Note 9 - Long-Term Debt (continued)

Qualified School Construction Bonds

Qualified School Construction Bonds ("QSCB's") are tax-credit bonds authorized through the American Recovery and Reinvestment Act. The QSCB program provides school districts the opportunity to issue interest free or very low interest bonds to finance the construction, rehabilitation, or repair of a public school facility or for the acquisition of land on which such a facility is to be constructed. Purchasers of QSCB's issued in 2009 receive a federal tax credit instead of interest payments. Purchasers of QSCB's issued in 2010 receive interest payments from the issuer, and the issuer can elect to receive subsidy payments from the federal government equal to the lesser of (i) the amount of interest payable under such bond on such date, or (ii) the amount of interest which would have been payable under such bond on such date if such interest were determined at the applicable credit rate determined under Section 54A(b)(3) of the Internal Revenue Code with respect to such bonds.

The District is scheduled to make annual deposits into trust accounts for the Qualified School Construction Bonds (QSCBs), Series 2010. These annual deposits plus the interest earned on the trust accounts will be used to pay off the debt upon maturity June 2026. The District accounts for these trust accounts as *Restricted Cash and Investments* on both the Statement of Net Position (Exhibit A-1) and in the Debt Service fund on the Governmental Funds Balance Sheet (Exhibit C-1). The investments are recorded at fair market value.

Note 10 - Debt Issuances and Defeased Debt

In prior years and in the current year, the District issued refunding bonds for the purpose of saving costs and decreasing the total debt service payments. Placing the proceeds of the refunding bonds in an irrevocable trust has provided for all future debt service payments on the original bonds. Accordingly, the escrow accounts to provide for all future debt service payments are not included in the District's financial statements. As of August 31, 2020, the outstanding balance of defeased bonds is \$15,400,000.

Note 11 - Interfund Transactions

Receivables and payables:

Interfund balances at August 31, 2020, consisted of the following individual fund receivables and payables are as follows:

Fund	Receivable	Payable
General Fund	\$ 26,835,022	\$ 350,552
Capital Projects Fund	-	22,466,646
Special Revenue Funds:		
Nonmajor Federal Funds	-	4,368,376
Internal Service Fund	350,552	-
Total	\$ 27,185,574	\$ 27,185,574

The outstanding balances between funds result mainly from the time lag between the dates expenditures occur and receipt of cash that originates in the ordinary course of operations. The cash transfers between funds to eliminate deficit cash have been eliminated on the government-wide statement of net position.

Note 11 - Interfund Transactions (continued)

Interfund transfers are defined as “flow of assets without equivalent flows of assets in return and without a requirement of repayment.” Interfund transfers during the year ended August 31, 2020, were as follows:

	Transfer In		
	Child Nutrition Fund	General Fund	Total
<u>Transfer Out</u>			
General Fund	\$ 31,038	\$ -	\$ 31,038
Capital Projects Fund	-	22,437,558	22,437,558
	<u>\$ 31,038</u>	<u>\$ 22,437,558</u>	<u>\$ 22,468,596</u>

General Fund transferred funds to the Child Nutrition Fund to cover the operations.

Note 12 - Litigation and Contingencies

The District is a party to various legal actions, none of which are believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying basic financial statements for such contingencies.

The District participates in numerous State and Federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2020, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

The Tax Reform Act of 1986 imposed regulations on tax-exempt bond issues. Governmental bonds issued after August 31, 1986, are subject to the rebate provisions of the Tax Reform Act of 1986. The rebate applies to earnings from bond issue proceeds investments that exceed bond issue stated interest rates. There is a complicated formula based on a five-year history; therefore, the exact amount of liability, if any, is not known until five years from the bond issuance date. This calculation yielded no known material rebate liability at August 31, 2020.

Note 13 - Revenues from Local Sources

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Debt Service Fund	Capital Projects Funds	Special Revenue Funds	Total
Property Taxes	\$ 409,532,856	\$ 155,156,140	\$ -	\$ -	\$ 564,688,996
Food Sales	-	-	-	7,366,004	7,366,004
Investment Income	2,981,827	1,094,553	3,186,362	-	7,262,742
Penalties, interest and other tax related income	2,107,423	648,559	-	-	2,755,982
Co-curricular student activities	986,401	-	-	3,317,645	4,304,046
Tuition and fees	6,644,236	-	-	150,859	6,795,095
Rental Income	822,078	-	-	-	822,078
E-Rate	400,909	-	-	-	400,909
Donations	-	-	-	990,704	990,704
Other	1,622,036	286	4,895,985	47,264	6,565,571
Total	\$ 425,097,766	\$ 156,899,538	\$ 8,082,347	\$ 11,872,476	\$ 601,952,127

Note 14 - Unearned Revenues

Unearned revenues at August 31, 2020, represent funds received in advance prior to revenue recognition. A summary of unearned revenues at the fund level consist of the following:

	General Fund	Special Revenue Funds	Total
Student Lunches	\$ -	\$ 705,721	\$ 705,721
Other	1,112,302	-	1,112,302
Total	\$ 1,112,302	\$ 705,721	\$ 1,818,023

Note 15 - Component Unit Disclosures

Organization and Nature of Activities

The Lewisville ISD Education Foundation, Inc. (Foundation) is a Texas nonprofit organization with the purpose of providing financial support to Lewisville Independent School District teachers and students. This purpose is accomplished by the Foundation receiving and managing cash donations from individuals and organizations, and awarding scholarships and grants.

Basis of Presentation

The financial statements are prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues and related assets are recognized when earned, and expenses are recognized when the obligation is incurred. They are presented in accordance with the provisions of Financial Accounting Standards Board ("FASB") ASU No. 2016-14, "Not-For-Profit Entities."

Note 15 - Component Unit Disclosures (continued)

Basis of Presentation (continued)

FASB ASU 2016-14 establishes standards for general-purpose external financial statements for nonprofit organizations, including a statement of financial position, a statement of activities, a statement of functional expense and a statement of cash flows. FASB ASU 2016-14 requires the classification of net assets and its revenues, expenses, gains and losses into three categories, if applicable, based on existence or absence of donor-imposed restrictions. The categories are "without donor restrictions" and "with donor restrictions." Accordingly, net assets of the Foundation's and changes therein are classified and reported as follows:

Net assets without donor restrictions - Net assets that are not subject to donor-imposed stipulations. Included in this classification are net assets earmarked by the Board for future purposes, such as the Foundation's board-designation for scholarships and grants.

Net assets subject to purpose restrictions - Net assets subject to donor-imposed stipulations that specify a use that is more specific than broad limits relating to purposes under which the Foundation operates.

Net assets not subject to appropriation or expenditure - Net assets subject to donor-imposed restrictions that must be maintained permanently by the Foundation. Generally, the donors of these assets permit the Foundation to use all or part of the income earned on any related investments for the specific donor purpose.

Public Support and Revenue

In the absence of a donor's explicit stipulation or circumstances surrounding the receipt of a contribution that make clear the donor's implicit restriction on use, contributions are reported as revenues or gains without donor restrictions, which increase net assets without donor restrictions. All donor-restricted contributions are reported as either net assets subject to purpose restrictions or net assets not subject to appropriation or expenditure, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), such restricted net assets are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Unconditional promises to give are recorded as received. Contributions receivable due in the next year are recorded at their net realizable value. Contributions receivable due in subsequent years are recorded at the present value of their net realizable value, using interest rates applicable to the years in which the promises are received to discount the amounts. The calculated discount to present value was not materially different from the face value of the contributions receivable at December 31, 2019.

Foundation management evaluates the collectability of contributions on an ongoing basis and writes off any contributions receivable considered uncollectible. There was one contribution as of December 31, 2019, that was considered uncollectible and written off based on management's review and is shown as a bad debt expense in the statement of activities.

Contributions of donated noncash assets are recorded at their fair market values in the period received. Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair market values in the period received. Although individuals volunteer their time and perform a variety of tasks that assist the Foundation, these services do not meet the criteria for recognition as donated services.

Cash and Cash Equivalents

The Foundation considers all highly liquid investments, primarily checking and money market accounts, to be cash equivalents. At December 31, 2019, the carrying amount of cash was \$584,658.

Note 15 - Component Unit Disclosures (continued)

Investments

Investments are presented in the financial statements at fair market value. Realized and unrealized gains and losses on investments are reflected in the statement of activities. Purchases and sales of investments are recorded on the trade date. Investment income is recorded in the period when earned.

Investments as of December 31, 2019, are composed of the following:

	Cost	Fair Value	Unrealized Gain (Loss)
Certificates of deposit	\$ 108,680	\$ 108,680	\$ -
Corporate bonds	275,049	285,921	10,872
U.S. Government secured Obligations	648,800	657,576	8,776
Individual stocks	1,827,732	2,301,081	473,349
Mutual funds	337,913	333,020	(4,893)
Fixed income mutual funds	356,556	369,338	12,782
	<u>\$ 3,554,730</u>	<u>\$ 4,055,616</u>	<u>\$ 500,886</u>

The following table represents the Foundation's fair market value hierarchy for its investments measured at fair market value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
U.S. Government and Agency Securities	\$ 657,576	\$ -	\$ -	\$ 657,576
Equity securities	2,634,101	-	-	2,634,101
Fixed income securities	-	655,259	-	655,259
Certificates of Deposit	-	108,680	-	108,680
Total	<u>\$ 3,291,677</u>	<u>\$ 763,939</u>	<u>\$ -</u>	<u>\$ 4,055,616</u>

Restricted Net Position

Temporarily restricted net position consists of contributions from donors who have specified certain programs or scholarships within Lewisville ISD for use of the contributions. The following is endowment as of December 31, 2019:

Balance 12/31/18	\$ 2,564,147
Contributions	129,004
Amounts appropriated for expenditures	(6,360)
Reclassification from temporarily restricted	100,450
Balance 12/31/19	<u>\$ 2,787,241</u>

Permanently restricted net position consists of contributions from donors who have specified that the funds be invested in perpetuity, with earnings from the investments available for scholarships or grants.

Note 15 - Component Unit Disclosures (continued)

Contributions and Other Receivables

Unconditional promises to give as of December 31, 2019, are as follows:

Receivable in less than one year	\$ 2,195
Receivable in one to five years	11,500
Net Unconditional Promises to Give	<u><u>\$ 13,695</u></u>

Other receivables totaled \$1,500.

Net Assets Without Donor Restrictions

Net assets without donor restriction at December 31, 2019, includes the following amounts designated by the Foundation's Board of Directors for grant endowment.

Silver Star Gala Grant	\$ 150,000
Silver Star Gala Scholarship	10,000
Earl Luna Memorial Grant	10,000
Pat Watts Honorary Grant	10,100
Janet Luttrell Honorary Grant	10,000
	<u><u>\$ 190,100</u></u>

Income Tax Status

The Foundation has received a letter of determination from the Internal Revenue Service advising that it qualifies as a non-profit corporation under Section 501(c)(3) of the Internal Revenue Code and, therefore, is not subject to income tax. The Foundation is not a private foundation within the meaning of Section 509(a) of the Internal Revenue Code.

Note 16 - Arbitrage

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of the amount earned on investments purchased with bond proceeds, over the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five-year anniversary date of the bond issue. The District has estimated that there is no arbitrage liability as of August 31, 2020.

Note 17 - Deficit Fund Balance

The District reported a deficit fund balance in its local special revenue funds of \$37,112. The District plans to eliminate this deficit fund balance through future operations.

Note 18 - Subsequent Events

Debt Issuance

In November 2020, the District issued Unlimited Tax Refunding Bonds Taxable Series 2020A and 2020B in the amounts of \$39,270,000 and \$12,785,000, respectively. The Series 2020A bonds mature in 2030, while Series 2020B mature in 2027. The interest rates range from 0.265 percent to 5.00 percent.

Texas Education Agency's (TEA) Response to COVID-19

On January 31, 2020, the Secretary of the United States Health and Human Services Department declared a public health emergency for the United States, and on March 13, 2020, the President of the United States declared the outbreak of COVID-19 in the United States a national emergency. On March 13, 2020, the Governor of Texas (the "Governor") declared a state of disaster for all counties in Texas in response to the COVID-19, which disaster declaration he has subsequently extended. In addition, certain local officials also declared a local state of disaster.

TEA will institute the ADA hold harmless for the first two six-week attendance reporting periods as follows: if an LEA's Refined ADA counts during those first two six-week reporting periods are less than the ADA hold harmless projections (described in the paragraph below), the first two six-week attendance reporting periods for 2020–2021 will be excluded from the calculation of ADA and student FTEs for FSP funding purposes and will be replaced with the ADA hold harmless projections. For purposes of the hold harmless calculation, TEA will not consider each six weeks attendance period independent of each other. TEA will replace attendance numbers for each eligible LEA's 2020-2021 first two six-week attendance periods with projected ADA and student FTE numbers calculating using a three-year average trend of final numbers from the 2017-2018 through the 2019-2020 school years, unless this projection is both 15% higher and 100 ADA higher than the 2020-2021 LPE projections. In the latter case, 2020-2021 LPE counts will be used.

TEA will make available an ADA hold harmless for the third six-weeks attendance reporting period, on the condition that LEAs allow on-campus instruction throughout the entire third six-weeks period, as further described below. The ADA hold harmless methodology will be identical to the methodology used for the first two six-weeks attendance reporting periods, except that the third six weeks will be examined independent of the first two six-weeks attendance reporting periods. Specifically, if an LEA's refined ADA counts during the third six-weeks attendance reporting period is less than the ADA hold harmless projections (described in the prior question and available online), the third six-weeks attendance reporting period for 2020–2021 will be excluded from the calculation of ADA and student FTEs for FSP funding purposes and will be replaced with the ADA hold harmless projections. As noted above, this ADA hold harmless methodology will only apply to attendance-based counts and will not apply to enrollment-based FSP allotments such as the state compensatory education allotment and the dyslexia allotment.

Notes to Required Supplementary Information – Pension

Changes of Assumptions

- The single discount rate as of August 31, 2018, was a blended rate of 6.907 percent and that has changed to the long-term rate of return of 7.25 percent as of August 31, 2019.
- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected based on the actuarial assumptions.

Changes in Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Other Information

Effective September 1, 2014, employers who did not contribute to Social Security for TRS-eligible employees were required to contribute an additional 1.5% of TRS-eligible compensation which nearly doubled the District's contributions into the Plan. Because the District's proportional share of the plan is determined by its proportional share of contributions, the District recognized a corresponding increase in its share of net pension liability.

Notes to Required Supplementary Information - OPEB

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

- The discount rate changed from 3.69 percent as of August 31, 2018, to 2.63 percent as of August 31, 2019. This change increased the TOL.
- The health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- The participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. Twenty-five percent of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20 percent to 10 percent. These changes decreased the TOL.
- Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

Changes of Benefit Terms

The 85th Legislature, Regular Session, passed the following statutory changes in House Bill 3976 which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventive drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017, and are not eligible to enroll in Medicare
- Created a single Medicare Advantage plan and Medicare prescription drug plan for all Medicare-eligible participants
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums

OTHER SUPPLEMENTARY INFORMATION
COMBINING STATEMENTS AND OTHER SCHEDULES

Nonmajor Governmental Funds

The Nonmajor governmental funds, which are made up of Special Revenue Funds, are used to account for funds that are legally restricted for specified purposes excluding capital projects.

Federal Funds are used to account for federally funded grants and programs.

State Funds are used to account for state funded grants and programs.

Local Funds are used to account for local grants, programs and donations from corporations, foundations and other local sources.

Food Service Fund is used to account for allowable expenditures, as determined under the National School Lunch Program, for the operation and improvement of the Child Nutrition Programs.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the District's overall financial health. This information has not been audited by the independent auditor.

Contents

Table #s

Financial Trends

These tables contain trend information to assist the reader in understanding how the District's financial position has changed over time.

1 through 4

Revenue Capacity

These tables contain information to assist the reader in understanding and assessing the factors affecting the District's ability to generate its own-source revenues.

5 through 9

Debt Capacity

These tables contain information to assist the reader in understanding the District's debt burden and its ability to issue additional debt in the future.

10 through 14

Economic and Demographic Information

These tables contain information to assist the reader in understanding the socioeconomic environment in which the District operates and to provide information that facilitates comparisons of financial statement information over time and with other school districts.

15 through 17

Operating Information

These tables contain information intended to provide contextual information about the District's operations and resources and to assist readers in using financial statement information to understand and assess the District's economic condition.

18 through 21

Source: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

* Information for other entities is as of 9/30/17. Some debt may be supported by other revenues and thus be considered self-supporting debt. Using gross debt may overstate the actual amount of debt supported by ad valorem taxes.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of these overlapping governments that is borne by the residents and businesses of the District.

FEDERAL AWARDS SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Trustees
Lewisville Independent School District
Lewisville, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lewisville Independent School District (the “District”) as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated December 9, 2019. Our report includes a reference to other auditors who audited the financial statements of Lewisville Education Foundation, Inc., as described in our report on Lewisville Independent School District’s financial statements. The financial statements of Lewisville Education Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Trustees
Lewisville Independent School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED
BY THE *UNIFORM GUIDANCE***

To the Board of Trustees
Lewisville Independent School District
Lewisville, Texas

Report on Compliance for Each Major Federal Program

We have audited Lewisville Independent School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Lewisville Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2020.

To the Board of Trustees
Lewisville Independent School District

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Grants Guidance. Accordingly, this report is not suitable for any other purpose.

Total Expenditures of Federal Awards			<u>\$ 34,602,352</u>

Note 1 - Basis of Accounting

The District accounts for all awards under federal programs in the General and Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such amounts are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note 2 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2020. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Guidance. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 3 - Reconciliation to Basic Financial Statements

The following is a reconciliation of expenditures of federal awards program per the Schedule of Expenditures of Federal Awards and federal revenues reported on Exhibit C-2:

Federal Program Revenues (Exhibit C-2)	\$ 39,092,632
SHARS	(3,995,211)
Interest subsidy on Build America Bonds	(495,069)
	<u>\$ 34,602,352</u>

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS (continued)

	<u>\$ 8,986,957</u>

LEWISVILLE INDEPENDENT SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
For the Year Ended August 31, 2020

Federal regulations, Title 2 U.S. Code of Federal Regulations Section 200.511 states, “The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee must prepare a summary schedule of prior audit findings.” The summary schedule of prior audit findings must report the status of the following:

- All audit findings included in the prior audit’s schedule of findings and questioned costs and
- All audit findings reported in the prior audit’s summary schedule of prior audit findings except audit findings listed as corrected.

I. Prior Audit Findings

None Noted

LEWISVILLE INDEPENDENT SCHOOL DISTRICT

CORRECTIVE ACTION PLAN

For the Year Ended August 31, 2020

Federal regulations, Title 2 U.S. Code of Federal Regulations §200.511 states, “At the completion of the audit, the auditee must prepare, in a document separate from the auditor's findings described in §200.516 Audit findings, a corrective action plan to address each audit finding included in the current year auditor's reports.”

DO NOT PRINT IN REPORTS

Schedule L-1 – Required Responses to Selected School FIRST Indicators

SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF3	<p>Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?</p> <p>(If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issued, the school district is considered to not have made timely payments.) Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 days from the date the warrant hold was issued.</p> <p>Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.</p>	Yes
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district’s fiscal year end?	Yes
SF8	Did the school board members discuss the school district’s property values at a board meeting within 120 days before the school district adopted its budget?	Yes
SF9	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end.	\$32,018,060

NOTE: This schedule is to be included as part of the annual financial audit report (AFR) submission on the required due date and published as a part of the school district’s AFR. This schedule should be submitted in the data feed file and submitted as an Adobe Acrobat portable document file (pdf).
