

COMMITTED TO EXCELLENCE

**DATE:** September 7, 2012

**TO:** Adrienne Gall, Principal

**SUBJECT:** Hebron Valley ES - IAQ - Air Test - Room B-3

I received W.O. #130284: "B3 smells of mildew, we've had problems each year with the floor window leaking, maybe due from that issue". I inspected Room B-3, and found a little musty smell. I am putting in a P.O. to Southwest GeoScience, to Air Test the room, next week. We should have the results back by Thursday 9/13. If you have any questions, please call me.

Thanks,  
Paul
