

COMMITTED TO EXCELLENCE

DATE: September 14, 2012

TO: David Girardi, Assistant Principal

SUBJECT: Forestwood MS - IAQ - Air Test - Room 416

Yesterday 9/13, I received W.O. #133292: "ROOM 416-Has moldy smell, humid, etc. and has become safety issue for Student who is having a reaction to room several times this week. Reported by Dave Girardi." Yesterday afternoon, I inspected Room 416 and found it to be slightly musty. I am putting in a P.O. for an Air Test. Southwest GeoScience will be doing the Air Test by Tuesday 9/18, and we should have the results back by Thursday 9/20. If you have any questions, please call me.

Thanks,
Paul
