

COMMITTED TO EXCELLENCE

DATE: December 13, 2012

TO: Sandra Lee, Assistant Principal

SUBJECT: Lakeview MS - IAQ - Air Test - Lakeview MS - Room 103

On Tuesday 12/11, you sent me an E-mail: "I have a teacher in room #103 who is concerned about the quality of air in there. She has been diagnosed with benign cysts in her nasal cavity and thyroid and she's wondering if it's connected with her classroom. Could we please do an air quality test in there?" I have set up Work Order #141216. I inspected the room on Tuesday 12/11, and have requested a P.O. to Air Test the room. Southwest GeoScience will be doing the test at the end of this week, and we should have the results back by Wednesday, 12/19.

If you have any questions, please call me.

Thanks,
Paul
