

DATE: March 21, 2014

TO: Pete Taggart, Principal

SUBJECT: McKamy MS - IAQ - Initial Contact report - Room 1150

I received W.O. #180851: "Principal has requested an air quality test on 1150. It has a 'marker/nail polish' smell that is not going away." I inspect Room 1150 yesterday and today. In discussions with you and the teacher, we will have the room Extracted by Custodial this weekend. I have contacted Hank Olson to have this accomplished. On Monday 3/24, I will be out to smell and see if that will solve the issue. If not, I will have an Air Test done. If you have any questions, please contact me.

Thanks,
Paul
