Google Chrome - Manage Pop-up Blocker

To manage the pop-ups on Google Chrome, you may need to add sites to the permissions. To do so,
1) Click on the link to Customize and Control Google Chrome.
2) Scroll to the bottom of the Settings window and click on “Show advanced settings….”
3) Click the “Content settings…” in the Privacy section
4) Scroll down to the Pop-ups section and click the “Manage exceptions” button.

5) To add a site to the “allow” list, type the url in the Box and enter or click the Done button.

6) The sites that have been added to this list should be allowed to open pop-ups.
